ARCHITECTURAL DESCRIPTION  *see continuation sheet*

*Describe architectural features. Evaluate the characteristics of this building in terms of other buildings within the community.*

**\*\* A previous inventory form #27 documented a house on this site. That house was demolished and this house was built on the same site. \*see attached photos**

The residence at 237 Main Street was built in 1996 with a side gable roof. This 5 x 3 bay, wood frame, two story building is rectangular in plan and sits on a concrete foundation. The building is clad with wood clapboard on the facade and wood shingles on the side and rear elevations. The side gable roof is covered with asphalt shingles. One brick chimney is located on the exterior, side of the house. The entrance contains a steel door with a molded surround and a transom. The windows contain 12/12 sash with molded surrounds accented with dentils. The cornerboards are thin and flat. The cornice is thin with a shallow molding. A one story side room with a recessed porch is attached to the side of this building.

HISTORICAL NARRATIVE  *see continuation sheet*

*Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.*

Previously, a building stood on this site but it was demolished in 1993. The American Legion Post 108 occupied the previous building which was given to the Legion by the Bates Family (Caleb). The Post tried to sell the building to someone interested in restoring it but were unsuccessful. Sean Killduff purchased the building and a salvage company took most of the material from the building.

This house was built on this site in 1996. Sean and Maria Kilduff are the present owners.

BIBLIOGRAPHY and/or REFERENCES  *see continuation sheet*

Recommended for listing in the National Register of Historic Places.  
*a completed National Register Criteria Statement form.*
