ARCHITECTURAL DESCRIPTION  *see continuation sheet*

*Describe architectural features. Evaluate the characteristics of this building in terms of other buildings within the community.*

The residence at 256 Main Street was built in 1890 in the Italianate style with a front gable roof. This 3 x 4 bay, wood frame, two story building is rectangular in plan and sits on a concrete block foundation. The building is clad with vinyl siding. The front gable roof is covered with asphalt shingles. Two brick chimneys are located at the ridge of the house. The side entrance contains wood door with a plain surround. The windows contain 6/6 wood sash with no surrounds. A bay window projects from the front of the building. The cornice is thin with a shallow molding. A side and rear ell are attached to this building.

HISTORICAL NARRATIVE  *see continuation sheet*

*Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.*

Unfortunately, this house has been heavily altered and has lost much of its architectural integrity. It appears that the original front entrance has been covered or removed. All of the original trim has also been covered or removed.

The house was built in 1890 and the current owner is the Doris Dandeneau Trust.
