ARCHITECTURAL DESCRIPTION *see continuation sheet*

Describe architectural features Evaluate the characteristics of this building in terms of other buildings within the community.

The residence at 41 Landing Road was built in 1875 in the vernacular style with a front gable roof. This 3 x 4 bay, wood frame, two story building is rectangular in plan and sits on a concrete block foundation. The building is clad with wood shingles. The front gable roof is covered with asphalt shingles. One brick chimney is located in the center of the house at the ridge. The entrance contains an early 20th century wood panel door with a square glass pane in the upper section which has a plain surround. The windows contain 2/2 wood sash with flat surrounds. The cornerboards are thin and flat. The cornice is thin with a shallow molding. A shed roof porch supported by doric columns and a balustrade runs across the front of the house. It appears that a shed roof addition was put on the side elevation but the date is unknown.

HISTORICAL NARRATIVE *see continuation sheet*

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

The residence at 41 Landing Road was built in 1875 on 19,000 sf of land. This building and the house located at 49 Landing Road are similar in form and may have been built by the same builder. They were both late 19th century buildings and their occupants may have had something to do with fishing or boating on the river.
