

OC6 Old Burying Ground Collection
Combination list
2018-11-13

The Kingston Public Library's Local History Room has two lists of names of those buried Kingston's Old Burying Ground.

The first was is the widely available *Death Records from the Ancient Burial Ground at Kingston, Massachusetts*, transcribed by Theodore S. Lazell from a Manuscript copy, made in 1859, by the late Dr. Thomas Bradford Drew, now in the possession of George C. Burgess, of Boston, Mass. Reprinted from Volume VII of the *Mayflower Descendant*, 1905.

This list is alphabetical by surname, then given name. For many names, dates of birth and death are listed; for some, family information or title may be included. A transcription of the list may be found as a pdf here <http://kplma.org/pdfs/doc-18-0322-oc6.pdf>.

The second is a 1997 poster produced by Eagle Scout Christopher Gale in 1997. It hangs in the Kingston Public Library, near the first stack of the adult reading room. A version of the plat included on the poster, showing the lot numbering system developed for the project is available here <http://kplma.org/pdfs/doc-18-0323-oc6.pdf> but the names included are not.

The pages that follow are a fixed text version of a locally available spreadsheet combining the lists from these two sources. There are names that appear in one list and not the other, and there are numerous variations in spelling between the lists. No attempt has yet been made to combine what appear to be the same person on both lists.

Questions regarding the list can be emailed to history@kingstonpubliclibrary.org.
