\$1,745 17

Removal of snow cost \$188.85, and has been included in the above account. The Excise Tax assessed upon the Brockton and Plymouth Street Railway Co. for 1908 is \$633.72.

The highway account should be credited with \$48.00 worth of crushed stone furnished for the new school house.

There is on file with the Selectmen a decree of the County Commissioners ordering the Town to make certain changes in the line of the Wapping Road.

Selectmen.

REPORT OF HIGHWAY SURVEYOR.

I have expended for the highways this year the following amounts:

For constructing 2,510 lineal feet of stone road,	\$2,390 87
For removing snow from sidewalks and roads,	116 25
For watering stone roads,	235 50
For building curbing and repairing sidewalks,	228 50
For repairing general highway, bridges, railings, etc.,	914 25
For surveyor's salary,	800 00
	\$4,745 37

Summary:—

Appropriation of town,	\$4,000 00
B. & P. St. R. R. Co., excise tax,	633 72
Broken stone sold,	51 00
Use of steam roller with engineer,	63 00
	\$4,747 72
Expended,	4,545 37
Unexpended,	\$2 35

There was bought from the Lane Quarry Co. 2,435,500 pounds of broken stone, which cost \$1,704.88, and from this there was sold to the building committee on new school house 60,000 pounds, and to W. R. Eakins, 4,000 pounds. Deducting \$51.00 (the cost of the broken stone sold) from \$1,704.88 leaves as the net cost of broken stone used on the highway, \$1,653.88.

The Town Treasurer has received from the State Highway Commission, for use of the steam roller with engineer, \$63.00, and from W. R. Eakins for broken stone, \$3.00. There is still due from the building committee on new school house, for broken stone, \$48.00.

E. ELBRIDGE ATWOOD.

REPORT OF COMMITTEE ON NEW ROAD.

(Howland's Lane, so called.)

Appropriation,	\$300 00
I have expended on the new road,	292 55
Unexpended,	\$7 45

The stone has been gotten out and the road turnpiked the entire distance laid out and has been graveled a large part of the way. There still remains to be built two or three culverts and about 300 rods of fence, and the balance of the road graveled, all of which will require an appropriation of about \$300.00.

Your School Committee respectfully report that the schools are in a prosperous condition.

We have an excellent corps of teachers, interested and enthusiastic in their work, the children gaining some inspiration and encouragement from them are doing themselves much credit in their efforts to do their part well and commendably.

Teachers, Superintendent and School Board have moved along harmoniously during the year.

In March the school committee, as a body, visited each of the school houses in town to investigate their general condition and ascertain what repairs were needed.

As a precaution against disease each school room was thoroughly fumigated during the spring vacation and has been at other times whenever it was necessary.

At the annual town meeting in March your committee recommended the erection of a four-room building for school purposes to meet the increasing necessity for more accommodations.

This subject was by vote referred to a committee composed of the selectmen and school committee to take into consideration this subject and report at a special meeting called for the purpose. This committee called a public meeting for a hearing in the Town hall which was held March 17th and the opinions of many of the citizens were there expressed.

Adjourned meetings of this committee were held on April 1, 8 and 15 with the result that it was unanimously voted to recommend the building of a two-room school house and a thorough repair of the Center Primary building and that the selectmen be requested to call a special Town meeting to be held April 30.

At that meeting the report was made and it was adopted by the voters.

Five hundred dollars was appropriated for repairs on the Center Primary building and five thousand dollars for the new building and lot, and it was voted that the erection of the school house be placed in the hands of the school committee.

In accordance with the vote of the town, work was begun on repairing the Center Primary school house early in the vacation of the schools.

This was thoroughly overhauled, the roof shingled, new floors laid, replastered, new toilet rooms built, etc., at a total cost of \$122.78.

This school room is now one of the best in town, light and convenient, being practically a new room in all its appointments.

During the summer vacation it was found necessary to open the North West school house at the commencement of the fall term on account of the increase in the number of pupils in that vicinity.

In order to make the house suitable for the purpose, repairs had to be made at a cost of \$104.59, the largest item of cost being for driving a well.

At a special meeting of the committee held May 6 it was decided to have plans for a new school house drawn and E. F. Stevens, of 93 Federal street, Boston, a competent architect, was designated to draw the plans.

Later it was decided to employ him as the architect.

May 9 a meeting was held on the lot selected as a site and a bargain made with Mr. Albert E. Holmes for its purchase.

At a subsequent meeting plans were presented and after an examination of the same it was felt that the cost of a building erected according to those plans would very much exceed the appropriation.

After this several meetings were held including conferences with the architect.

Some changes were made in the plans so that specifications were drawn and a call made for bids for its erection.

When these bids were opened they were found to so exceed the expectations of the committee that more conferences were held and more changes made.

Finally after consultations with the selectmen and architect, it was decided to have the cellar dug and walls built by the day's work instead of by contract and that the contract for the erection of the building be awarded to the lowest bidder, Mr. George B. Holmes.

Work was commenced upon the cellar Sept. 30, since which date the work has been progressing as rapidly as could be expected.

It will be necessary during the coming year to make some alterations in and repairs upon the High School house to make it convenient and suitable for High School work and quite extensive repairs will be required upon the Silver Lake school house.

Our present superintendent and past superintendents have frequently called the attention of parents to the encouragement it would give teachers and pupils if they would visit the schools and manifest an interest in what they are doing.

We, as your committee, would also urge upon you this privilege and as it seems to us, a duty you owe to your children to personally observe the methods used and efforts made for their advancement. Thus a better acquaintance will be formed, a deeper interest felt by you and great encouragement given to all teachers as well as to all having charge of educational work.

We recommend the following appropriations for the necessary expenses for the current year:

Teachers' Wages,	\$5,700 00
Fuel and care,	1,500 00
Repairs,	500 00
Incidentals,	400 00
Books and supplies,	800 00
Conveyance,	500 00
Superintendent,	300 00
Music,	275 00

Drawing,	275 00
School Physician,	150 00

Much to our regret in July, Capt. Henry B. Maglathlin resigned his position as a member of the school committee on account of rapidly failing health, which resignation was accepted at the regular meeting held Aug. 18, 1908, and at a joint meeting of the selectmen and school committee held Sept. 15, 1908, Mr. Harry L. Lane was chosen to fill the vacancy.

At this meeting the committee on resolutions chosen at a previous meeting presented the following report which was unanimously adopted by the committee.

Whereas, Capt. Henry B. Maglathlin has felt obliged to resign his position as a member of the school committee on account of rapidly failing health after the long service of seventeen out of eighteen years, a service in which he took a deep interest and one which has proved of great benefit to the schools.

Therefore, Resolved, That it is with feelings of deep regret that we lose his presence with us, as well as his valuable advice. Always present at the meetings and deeply interested in the welfare of the schools, he will be greatly missed not only by us, but by all who are interested in educational work.

Resolved, That we extend our sympathy to him in his present condition, and trust that he may be spared long to brighten the lives of those about him, feeling that whenever he shall cross the borderland, he will be prepared to hear that welcome message, "Well done, good and faithful servant," enter into the joy of a life well spent, a work well done, a reward well earned.

Resolved, That a copy of these resolutions be spread upon the records and a copy sent to Capt. H. B. Maglathlin.

As usual we have to report changes in our list of teachers. In the summer Miss Dawes accepted a position in Stamford, Connecticut, and is succeeded by Miss Eva H. Williams of Tilton, N. H., a graduate of Boston University and a teacher with a record of successful experience in high school work. I am pleased to say that she is proving herself worthy of the commendation she had received in her previous positions.

During the summer it was decided that conditions were such as to warrant the re-opening of the Northwest school. Miss Bates was transferred from the Wapping school to the vacancy thus created. As her successor Miss Carolyn C. Grace, a recent student at Hyannis Normal School, was secured. This school, a few years ago one of the most crowded, has become by removals our smallest. While the small school presents to the ambitious pupil opportunity for advancement that cannot be enjoyed in larger ones, the presence there of pupils who are idle or irregular in attendance has a correspondingly increased influence for harm. In the Wapping school there have been pupils who were far in advance of what they would have been, were they confined to the requirements of a graded school. On the other hand there are cases where in a more compact community we should have been justified in invoking the law to compel regularity of attendance. In the midst of these conditions Miss Grace has displayed an energy and enthusiasm which would have deserved commendation even if the visible results had been far less than she has obtained.

Late in the summer vacation Miss Marston was obliged by ill health to ask for a leave of absence. This was granted and Miss Bates was placed in charge of her school until she should return. For teacher in the Northwest school during Miss Bates' absence Miss Elspeth C. Saunders of Andover, a graduate of Salem Normal School, was engaged. Both Miss Bates and Miss Saunders are filling their new positions in an eminently satisfactory manner.

Early in the fall term it was found possible to resume all day

sessions for each grade in the Center Primary school, but at about the same time the number of pupils in the Rocky Nook Primary became too great to be accommodated by any re-arrangement of the seats in the room and we were compelled to go upon a half day basis there.

While there are some advantages in this arrangement it is only true to say that for a school made up of the varied elements that this one is we should not willingly have adopted it.

The room at the Rocky Nook Grammar school can hardly be arranged to accommodate more than forty pupils, even if that were not a sufficient number for the teacher to handle in the three grades found in this school. To keep to this number several have been transferred to the Intermediate school at the center of the town where there has been room to accommodate them. Thus far it has been possible to send those who live about equally distant from each school thus causing little inconvenience.

The tables of membership and attendance show a steady increase in the number of pupils in our schools. The low per cent. of attendance in the Center Primary schools for the year ending in June is due to the prevalence of whooping cough in those schools in the early part of the year, and it is a matter for congratulation that with the schools broken up as they were it was possible to secure even so good a record as appears, and that at the close of the year the classes had been prepared to go on so well. The teachers deserve great credit for their work under peculiarly difficult conditions.

The statistics for the fall term just closed are given and furnish further data for comparisons. The number of tardinesses is also given in the hope that this presentation may result in an improvement in this respect. Probably ninety per cent. of the tardiness is due to ten per cent. of the pupils. It would seem that much of this might be avoided if our efforts to secure punctuality were understood and seconded by the parents.

The school physician has been ready at all times to respond

to the calls upon his services by the teachers, and they have not hesitated to refer to him any suspicious cases in their efforts to keep their schools safe and wholesome places for the pupils. If there could in some way be aroused in the minds of certain elements of our population the same feeling of disgust and horror at the prevalence of itch and vermin as exists in the minds of others who are exposed to the contagion from those who are indifferent, the problem of the extermination of these diseases would be any easy one. As it is, however, constant watchfulness is necessary.

There have been several cases of scarlet fever during the year and in widely separated parts of the town, but I think it may be confidently asserted that there has been no case communicated through the schools or on account of lack of care on the part of the school authorities.

The account of the repairs at the Center Primary building and the progress upon the new school house have been so fully reported already that it is unnecessary to refer to them further than to say that the remodeled building furnishes us with one of the most attractive and convenient school rooms in town and that in the new building we shall have one of which all the citizens may well be proud.

So far in this report I have spoken of conditions in those schools only in which there has been a change of teachers. Fortunately a greater number remain in charge of the same teachers as were reported last year and I feel that at no time in their service have these teachers collectively and individually, been more earnest and devoted to their work than during the period covered by this report.

Since the preparation of this report was begun there has been received the resignation of Miss Newman, for the past eight years the efficient supervisor of drawing of this town, who gives up her position here to assume a similar one in the city of Quincy. During her long service in Kingston, Miss Newman has made a large circle of friends outside the number of those

immediately connected with the schools who will also regret her departure but rejoice at her well-earned promotion.

The past year has been a prosperous one for the High School. The changes that have been going on in the courses of study have caused less uneasiness, adjustments have been made, and such further modifications as have been planned and may be necessary will go into operation with little if any friction. There has been a most commendable spirit of earnestness, industry and co-operation on the part of the pupils, and of good feeling between teachers and pupils. In June a class of ten was graduated and four of the class of 1907 received Fifth-Year certificates.

Reference was made in the last report to the fact that our High School has received the approval of the College Entrance Examination Board. To appreciate the honor that this approval carries it must be understood that it is given only after an extended examination of the record of the school and its graduates. The most elaborate course of study and the most expensive equipment cannot secure it unless its graduates have maintained an honorable record in the higher institutions which they have entered. Citizens of Kingston should take pride in the fact that there have gone out from their school those whose records would stand this inspection and that the present condition of the school is such as to win so notable commendation.

In closing this report I wish to express my appreciation of the cordial support that I have at all times received from your board and from the citizens in general in my efforts to promote the efficiency of the schools.

REPORT OF THE LECTURE COMMITTEE.

At the annual meeting of the school committee, Galen E. Pratt, Harvey A. Soule and John W. Cobb were appointed a committee to provide lectures for the free lecture course provided for by the Adams fund.

After a careful canvas of the different lecturers whose names and subjects were presented to us, we decided that the most interesting and profitable one presented was that by the Arctic Explorer, Commander Robert E. Peary.

Correspondence was at once opened with him and his services were secured.

His lecture was listened to by a large, interested and appreciative audience, taxing not only the seating capacity, but the standing room of the Town Hall.

FINISHED, YET BEGINNING.

CLASS SONG.

Words by Flora A. Cole.

Music, Stein Song.

Here's a welcome from the Seniors,
From the class of Nineteen-eight;
We've been Freshmen, Soph'mores, Juniors
Now to-night we graduate.

Refrain.

Kingston High, cherish ever,
Her good work shall perish never;
And we pledge her devotion.
From our loyal hearts and true.
Four long years we've spent together,
Happy years of work and fun:
Worked in fair and stormy weather,
For the proof of work well done.

Finished, yet we're just beginning,
And our future lives will show
Just how much we have been winning,
For we gather as we sow.

Now the time has come for leaving
All the scenes we love so well;
And from hearts with sadness heaving,
Comes the echo, "Fare thee well."
