ICHABOD WASHBURN FUND.

The annual report of the Trustees of the Ichabod Washburn Fund has been made to the Selectmen in accordance with the terms of the will of Mr. Washburn and has been placed on file. The income for the year ending March, 1913, was \$436.19. \$436.00 has been distributed among 39 widows and 14 single women.

RECOMMENDATIONS.

The following appropriations are recommended after consulting with the officers of the various departments:

For—	
School teachers' wages,	\$5,800 00
Books and supplies,	600 00
Fuel and care,	2,900 00
Incidentals,	400 00
Repairs,	1,000 00
Conveyance,	500 00
Physician,	100 00
Superintendent,	360 00
Musie,	300 00
Drawing,	300 00
New School house completion,	2,000 00
Library,	800 00
Surety bonds,	75 00
Memorial Day,	100 00
Treasurer and Collector,	600 00
Street Lighting,	650 00
Suppression of Crime.	300 00
Suppression of Moths,	750 00
Poor,	1,600 00

State Aid,	1,200 00
Town Warden,	150 00
Highway,	4,000 00
Water bonds,	4,000 00
School house notes and interest,	1,680 00
Water Department,	3,500 00
Fire Department,	500 00
Forest Fires,	300 00
Town house,	100 00
Contingent,	2,000 00
Outstanding Note,	3,000 00

Total Amount, \$39,565 00

Add to this the sum of \$7,000.00 for State and County taxes and deduct \$12,565.00 on account of available receipts from sources other than tax assessments and we have the sum of \$34,000.00 to be assessed, being \$4,000.00 more than the assessment of 1913. Each \$1,650.00 of increase of the amount to be raised adds about \$4.00 to the rate per thousand dollars of valuation. This means a rate of more than \$19.00 instead of \$17.00 as of last year. Were the taxes all collected the rate would be less than last year instead of more. This list is prepared for careful consideration at the annual meeting to be held on the first Saturday in March and the conclusions drawn are based upon the assumption that the valuation for taxable purposes remains the same. The probabilities tend to the conclusion that the valuation will not be increased. The outlook is not encouraging to those who pay the taxes nor to the Collector who knows from experience the reluctance of many to pay even at a lower rate.

ROCK

REPORT OF ROCKY NOOK SCHOOL HOUSE COMMITTEE

The School Committee of the Town of Kingston, having by a vote of the town, been appointed a building committee on the new schoolhouse at Rocky Nook, and having completed its labors, has prepared the following statement of facts in regard to the work done, and respectfully submit the following as their report:

At the annual town meeting, held on March 2, 1912, the School Committee was authorized to provide additional accommodations at Rocky Nook, and the sum of \$7,500 was appropriated to meet the expense thereof.

Having in mind the rapid increase in the number of pupils in this part of the town during the last few years, and feeling that the increase in all probability would be a continuous one, the committee believed it to be for the best interests of the town to secure an estimate as to probable cost. First: Of erecting a modern two-room building with basement. Second: Of erecting a modern four-room building, two stories high, with the upper story left unfinished.

Accordingly tentative plans were made and estimates secured. The estimate for the two-room building, including the estimate of the committee for a suitable lot, was \$6,000. The estimate for the four-room building, with upper story left unfinished, including lot, was \$6,800.

written into the specifications. However, after the building was well along toward completion, the inspector ordered the work done.

As for the steam pipes, it was decided after the work was begun, that it would be best to carry all piping to the upper floor, before the lower rooms were finished.

The addition of the balcony and closets was not decided on until a short time before the building was finished.

It will be noticed that the only expense incurred for plans and specifications is the bill of Rachel Holmes.

1914

The most notable feature of the past year was the erection and occupancy of the new building at Rocky Nook, for which an additional appropriation of \$1,000 was made at the annual town meeting in March. That this building was much needed is shown by the fact that the finished part is already housing more pupils than the rooms were planned to accommodate.

The school records show that there are about forty more pupils now at Rocky Nook than there were one year ago. This increase was so much more than was anticipated that it was found impossible to arrange the grades to accommodate all the pupils, and to overcome this difficulty the eighth grade has been conveyed to the Centre where, fortunately, we had ample accommodations.

A proportionate increase the coming year will demand another room and one more teacher. In this event we believe it would be well to finish the upper story of the new building and transfer the sixth and seventh grades from their present location in the old Grammar building to a room in the new building.

The cost of finishing the upper story of the new building we believe would be approximately \$2,000.

The appropriations for 1913 were cut to such an extent that a deficit was inevitable. The committee made an earnest endeavor to keep within the appropriation, but were unable to do so. The Wapping and Silver Lake schools were combined and the Wapping scholars conveyed to Silver Lake by the school team which formerly conveyed the pupils from the Emond neighborhood. The transportation over this route of a mile and a half was discontinued. This arrangement saved the expense of maintaining the Wapping school.

Owing to diminished appropriations the committee has not felt able to maintain the insurance, which has been carried on a number of the buildings for the past few years, and all policies expiring during the past year have been allowed to lapse. It has been the policy of the committee for several years past to carry insurance on a few of the best buildings, and we believe

that the appropriations should be liberal enough to continue this policy.

Likewise we were unable to purchase the entire winter's supply of coal, and only enough was bought to last to January 1st. If the fuel is to be bought to the best advantage sufficient funds should be in the hands of the committee so that the entire supply can be purchased in the spring.

Any other changes which could have been made to reduce expenses would have greatly impaired the efficiency of our schools and the committee was unwilling to do anything that would make them less efficient.

We recommend the following appropriations for the necessary expenses for the current year:

Teachers' wages,	\$5,800 00
Fuel and care,	2,930 00
Repairs,	1,000 00
Incidentals,	400 00
Books and supplies,	600 00
Conveyance,	600 00
Superintendent,	360 00
Music,	300 00
Drawing,	300 00
School physician,	100 00

Winnifred A. Thomas, Salem Normal, Commercial Course, High School, July.
Esther King, Framingham Normal School, Silver Lake, November.
M. Frances Spofford, Salem Normal School, Silver Lake, December.

At the beginning of the spring term it was decided, as a measure of economy, to close the Wapping school whose membership had become very small, and transport the pupils to the Silver Lake school where they could readily be accommodated, at the same time discontinuing the transportation from the Emond neighborhood. Those concerned have shown a commendable readiness to co-operate with the committee in this effort to reduce expense.

Before schools reopened in the fall it became plain that the number of pupils in the lower grades at Rocky Nook would compel a different arrangement of the schools from that which had existed the preceding year. Accordingly each of the first three grades was made a separate school, the next four formed two schools, while the eighth was sent to the Center Grammar school, thus caring for all without any increase in the number of teachers. Reference to the table of membership by grades given above will show that another year further adjustment will be necessary, calling for the opening of still another room. Under this arrangement each of the four lower grades will constitute a school and the four upper grades will be cared for in two rooms. This marked increase in the number of pupils in this part of the town will probably seem unaccountable to those who have not observed the activity in building operations that have prevailed there for the last few years. The conditions, however, confronts us and we must seek the best solution of it that our circumstances will permit.

A new law regarding the certification and employment of minors went into effect in September. While it is too long to be produced in full at this place, its principal requirements may be briefly summarized.

Minors between the ages of fourteen and sixteen may not be employed over forty-eight hours a week. They may not be employed without securing an "Employment Certificate." Before this may be obtained the minor must procure from the employer a promise to employ the minor, a physician's certificate of fitness for the employment, evidence of age, which may be a birth certificate from the town or city records, a properly attested copy of record of baptism, or a copy of the record of age as given in the register of the first school attended in the state. He must also present a record of school attendance for the year after becoming thirteen years of age, showing that he has passed through the fourth grade and that he has attended school at least one hundred and thirty days since becoming thirteen. The cer-

tificate must be signed by the minor in the presence of the one who issues it. If the minor leaves his position the certificate must be returned by the employer to the superintendent who issued it within two days under penalty of a fine, and a new certificate must be issued for each position filled.

Minors over sixteen must procure Educational Certificate, which are issued without the physician's certificate, employer's promise, or school record. Evidence of age, however, is expected so far as is practicable as in the case of Employment Certificates, and a new certificate must be obtained as often as the minor changes his employer.

Because of the change in this law preventing the employment of minors under sixteen years of age more than forty-eight hours a week, there have been a number of pupils returned to school, and as time passes the number of pupils leaving school at fourteen will probably be somewhat smaller than heretofore.

During the town's past fiscal year every effort has been made to keep the expenditures for school purposes within the amount appropriated. In doing so some economies have been practiced that cannot go on year by year, for instance, in the matter of books and supplies the very small expenditure has been possible partially on account of the stock on hand and to the fact that in some instances sets of books have been continued in use until entire replacement will be necessary.

It may be of interest to note that according to the last report of the State Board of Education, the average expenditure per pupil from proceeds of local taxation for the state was \$36.19, while the cost per pupil for Kingston from local funds was \$26.13, and Kingston's standing was 214 in the 353 cities and towns of the state.

EVERETT G. LORING,
Superintendent of Schools.

REPORT OF SCHOOL PHYSICIAN

The School Physician has made fifteen calls and a total of 520 individual examinations during the year ending December 31, 1913.

The following diseases, or diseased conditions, were found to exist:

- Decayed teeth, 354.
- Enlarged tonsils, 138.
- Impetigo contagiosa, 7.
- Adenoids, 18.
- Pediculosis, 6.
- Nits, 32.

In all cases where any diseased condition was found notices were sent to the parent or guardian, stating the nature of the condition found. All cases found to be suffering from any contagious or infectious disease were excluded until such time as all danger of communicating them had passed.

Ten examinations were made of those presenting employment tickets, and the required certificate issued in each case.

Respectfully submitted,

OSCAR C. SWOPE, M. D.,

School Physician.
