There has been paid in all to 26 persons for State Aid, the sum of \$1,114.00.

There has been reimbursed to the Town from the State during the year on account of such payments during 1913, the sum of \$1,336.00.

The appropriation of \$1,200 was made for this purpose and probably the number of recipients will be increased the coming year and the same appropriation will be found necessary.

There has been paid and charged to the Poor Account the sum of \$2,367.53. This includes the sum of \$963.83, which has been paid in aid of persons residing in the town and who have a settlement in other places, \$163.63 of which has been paid into the treasury and the balance is still due. The number seeking aid from the public is increasing and it is evident that a larger appropriation will be required. Cases are multiplying where persons who are in hospitals or other public institutions, have never gained settlement abroad notwithstanding they have not lived in Kingston for years.

The Suppression of Crime is another department for which a larger appropriation is required. Although a sum much larger than the appropriation has been expended there are those who feel that they are not properly protected and their claim is justifiable. The time is not far distant when it will be necessary to provide for night watchmen and a more efficient police force and it is the opinion of the Selectmen that the provision for this department should be increased.

The annual report of the Trustees of the Ichabod Washburn Benevolent Fund has been made to the Selectmen, as is required by the will of Mr. Washburn and is on file with the 39 other reports that have been made since the first distribution in March.

1874. This last report shows that \$103 was distributed in March among 35 widows and 17 single women. There has been distributed within the 40 years, including the payments made in March, 1874, the sum of \$18,554, being nearly the entire income, there having been but a small sum charged during the time to expense account. Of the 35 beneficiaries in 1874, two are still living. One is in her 86th year and the other in her 68th year. Of the Trustees first appointed, one served eleven years, another thirty-nine years, and one is still a member.

TWENTY-NINTH ANNUAL REPORT OF THE WATER COMMISSIONERS

The Water Commissioners beg leave to submit the following Report. During the month of March, Superintendent E. E. Bird tendered his resignation, and the vacancy was filled by the appointment, April 1st, of H. E. Bryant. One month later, Commissioner Chas. Drew resigned, closely followed by the sickness of Commissioner Clarence Merrill, causing two vacancies in the Water Board.

After two months' waiting to ascertain that the recovery of Commissioner Merrill was not soon at hand, the Selectmen, together with the remaining member of the Board (Frank Sampson) filled the vacancies by the appointment of Mr. W. W. Dewing and Mr. Fred C. Chandler.

Pipe Extension on Landing Road.

During the month of June, the labor on this extension was begun, and it was the intention of the Superintendent in charge, to lay pipe as fast as excavation proceeded, but the Foundry delivered wrong fittings to make connection at Main, and an unusual delay was experienced in securing the right casting, during this time the excavating was permitted to continue, expecting hourly to be able to proceed with pipe laying.

A severe rainstorm followed by high tides caused a portion of the ditch next to the bridge to cave and partly fill.

Water at all times made the work of pipe laying difficult and slow, while a ledge encountered, and the difficulty of getting explosives for blasting, added to the time and cost of completion. Tide water undermining a portion of the road bed, resulted in the sad accident which proved fatal to Mr. Patrick W. Smith.

This accident occurred without any previous evidence that such a thing was possible. The death of Mr. Smith is greatly

regretted by all the members of this department, as it must also be by all who knew him; an honest, upright, faithful citizen.

Detail.

810 ft. of 6 in. cast iron pipe was laid, extending to Junction of Landing Road and River street. One hydrant was connected in front of property of Mrs. Anna Loring. Service pipe connected with the above property, also service extended to property of Mr. Elisha B. Sampson.

RECOMMENDATIONS

The experience of the Department Superintendent during the month of October in replacing defective gate, with new one, corner Crescent street and Smith Lane, called to the Commissioners' attention the following facts:

Superintendent reported that the gates failed to work properly, and water could not be shut off entirely to permit of new gate being jointed to main in anything like a reasonable time, in fact unusual methods had to be adopted to do the job at all.

During the time this was being attempted, 36 hours elapsed between the time water was shut off, and turned on again, on Smith Lane and 10 hours for the entire Seaside district.

For the enlightenment of the citizens a brief outline of the layout of supply pipe and its condition seems necessary to justify the recommendation of the Commissioners.

The supply for this district comes through a 6-in. main proceeding from a northerly direction, to a point 15 feet north of the property line of D. C. Freeman, at this point the main pipe is reduced to 4-in. and continues through Crescent street to South junction of Crescent and Main streets, and on south to line.

From either end of Crescent street branch pipes are laid on Main street to properties of Jos. Metz, south end and Jacob Boop, north end. This leaves an interval between Dead ends of 1150 feet on Main street. The 4-in. pipe supplying the Seaside district, Crescent street and Smith Lane, seems to the Commissioners inadequate to the constantly changing conditions, especially as the pipes are badly filled with rust and sediment. Repairs to any part of main pipe on Crescent street necessitates shutting off water over entire Seaside district, putting that section to a serious disadvantage from fire hazards.

Recent trials of the efficiency of the water supply from hydrants, with reservoir full and both pumps in operation, was made by the chairman of this department and the Chief of Fire Department, hose connected to hydrant 50 feet north of Ken-

nely property on Main street, and another attached to hydrant at foot of Peck street. These tests made under the most favorable conditions, resulted as follows:

With both hydrants open, we were able to throw a 1-in. stream 20 feet from nozzle at Peck street and 8 feet from nozzle on Main street. With either closed the other gave out an increase of a 5 foot throw. 100 feet is estimated to be a fair average under normal conditions.

With the gap between properties of Jacob Boop and Jos. Metz on Main street filled and the dead ends connected, an unstinted supply of water would be furnished to give proper protection to this end of the Town, and permit of repairs at several points without shutting off supply to any except in immediate neighborhood.

We recommend the appropriation of \$1,000 to make this improvement. We ask your careful consideration of this matter, believing it to be better to provide against possible disaster, than to provide after, and regret our tardiness.

Respectfully submitted,
FRANK A. SAMPSON, Chm.

The School Committee beg leave to submit the following report:

During the early part of the year, nothing of unusual interest transpired, and the labors of the Committee were chiefly routine. Early in the month of June, the matter of finishing the upper story of our new School Building at Rocky Nook was taken in hand. Plans having been previously drawn and approved by the State Building Inspectors, we had only to submit the same for bids. Copies of the specifications were submitted to all the local contractors and to the great disappointment of the Committee, little interest was manifested by the contractors, as only one bid was received, and as a result the contract was awarded to Mr. George Holmes, the only bidder. The finish, (woodwork, painting, etc.) was made to correspond with the rooms on the lower floor.

Heating

The heating furnace for the upper story was a matter of duplicating the furnace already in use, satisfactory results having been shown.

Plumbing

Two of the latest sanitary Drinking Bubblers were installed, and additional closet fixtures necessary were added.

Grading

The appropriation for the completion of the school would not admit of grading and seeding the lawn, and had to be deferred until some future time.

Building Account

Frank C. Woodward, Masonry,	\$139 52
Frank A. Sampson, Plumbing and Heating,	249 18

Kearney Bros. & Watkins, Deck and chairs,	322 50	
Edgar T. Ward's Sons, T Irons,	6 20	
George B. Holmes, contract,	1,159 10	
Thompson & Holmes, Painting,	219 60	
Total,		\$2,087 00

The appropriation being exhausted, the following bills were charged up to the repair account.

J. B. Collingwood & Sons, Curtains,	\$45 00	
J. S. Hammond Co., Black Boards,	106 74	
F. A. Sampson, Two additional Closets,	45 00	
		\$196 74

This latter sum will explain the large amount expended for repairs on the new building as shown in the table of School accounts.

The attendance at the School exceeded expectations and necessitated the additional closets.

All necessary repairs were made on all School Buildings now in use, except the High School Building.

The sum appropriated to repair this building, \$500.00, proved upon closer inspection to be wholly inadequate.

Present conditions necessitate partial reconstruction, which together with the requirements of the Building Inspection Department of the State Police, demand a large expenditure.

Recommendations

We recommend the following appropriations for the necessary expenses for the current year:

Teachers' wages,	\$5,800 00
Books and supplies,	600 00
Fuel and care,	2,500 00
Incidentals,	500 00
Repairs,	1,000 00
Conveyance,	600 00
School Physician,	100 00

Superintendent,	360 00	
Music,	300 00	
Drawing,	300 00	
		\$12,060 00

Respectfully submitted,

OSCAR C. SWOPE, Chairman,
FRANK L. CHANDLER, Secretary,
HARVEY A. SOULE,
FRED G. BRACKETT,
HERBERT E. BRYANT,
HARRY W. CLEMONS.

The following changes have taken place in the teaching force since the last report. At the beginning of the fall term Miss Bates was succeeded in the second grade at Rocky Nook by Miss Mildred L. Randall. With the opening of the additional room in the new school house Miss Curran was put in charge of the fourth grade and as her successor in the third grade Miss Grace E. Wing was selected. At the Upper Center Primary Miss Bryant followed Miss Roby who had resigned to accept a position in New Jersey. To fill the position in the Lower school Miss Louise J. Tower was chosen, but on account of illness in her family was unable to remain, and was followed in turn by Mrs. Elspeth C. Hardy, a former teacher of the Northwest school. Others to resign were Miss MacMillan of the High school and Miss Spofford at Silver Lake and the resulting vacancies were filled by the choice of Miss Isabelle Cameron and Mrs. Florence G. Blume. At the close of the fall term Miss Faunce, after long and faithful service in our schools, was compelled by failing health to retire and Miss Delila G. Campbell was chosen as her successor.

With the beginning of the present school year the School Committee raised the age of admission to the first grade to five and a half years. This change is in accord with approved practice and should result in reducing the number of pupils who are obliged to repeat work, especially in the lower grades, and eventually the effect of the increased age and greater maturity will be felt in greater effectiveness throughout the system. Even now our age of admission is half a year below that of most places having an elementary course of eight grades.

A law passed by the last General Court requires that the school census shall show the number of pupils between the ages of five and seven, seven and fourteen, and fourteen and sixteen. These figures have accordingly been given in the statistical part of the report above, to which I have added also a table showing the distribution of the school population by ages which may be of interest, particularly if taken in connect-

ion with the table showing the distribution of the pupils by grades.

By the completion of the new building at Rocky Nook and the occupation of its four rooms the present needs of that section are well provided for, but the old building now unoccupied should not be neglected as continued increase in the school population may require its use within a few years.

Last spring a considerable number of our pupils received seed from the Extension Department of the Massachusetts Agricultural College, the varieties offered being corn, beans, potatoes, cabbage, beet, and tomato. Quite a number also purchased penny packets from the Flower Mission. To show the interest of the children in the work and something of the results I will present two reports from the teacher upon the home gardens of pupils in the Stony Brook school.

November 6

Arthur Havy raised three pecks of potatoes from four seed potatoes.

Carroll Randall raised one bushel of potatoes from his four seed potatoes.

Arthur Sampson raised one bushel and one peck of potatoes from his four seed potatoes.

Albert Alberghini raised two bushels of tomatoes from his package of seed.

Frank Randall raised four bushels of tomatoes from one package of seed. He sold three dollars worth. From his package of corn he planted ninety-seven hills and produced twenty-one dozen ears.

Lewis Sampson has saved a bushel of corn on the ear for seed. Total amount raised not reported.

Mildred Clemons had four dozen ears of corn.

Vernon Cushman raised six dozen ears of corn from the seed provided besides pumpkins and cucumbers.

Howard Green sold 1 peck of tomatoes,	\$0 25	
cauliflowers,	1 95	
cucumbers,	0 35	
		\$2 55

Estimated value of product used at home,	
and given away, tomatoes,	\$1 50
cauliflower,	1 00
lettuce,	1 00
	\$3 50

Gordon Randall. Home Garden Product.

Beets,	1 1-4 bushels.
Cabbage,	82 heads.
Carrots,	1 bushels.
Peppers,	1 bushel.
Onions,	2 bushels.

Amount of tomatoes, cucumbers, radishes, and pumpkins uncertain, but "they had all the tomatoes they could use on the table, besides making 25 quarts of catchup, using one half bushel for chili sauce, one and one-half bushels for piccalilli, and one bushel of green tomatoes for pickles." Estimated value of garden \$10.

This work is a valuable part of the school activity and I trust it may be developed and extended so as to reach a larger proportion of the pupils.
