COMMISSIONS AND CORRECTIONS OF DEATHS FOR OTHER YEARS

Respectfully submitted,

REPORT OF THE BOARD OF SELECTMEN

The Board of Selectmen have had to call several special town meetings this year. On January 18th a meeting was called to act on a bond issue for the Silver Lake Regional School. A quorum not being present, it was necessary to adjourn and meet again on January 23rd at which time the bond issue was approved.

The Annual Town Meeting was held on March 15th. The action on the warrant was not completed at this time and the meeting was adjourned until March 18th. A Special Town Meeting was called on June 16th in accordance with the vote at the regular town meeting to appropriate monies to renovate the Town Hall and also the Town Hall Annex in which the offices of the Welfare and Veterans Departments will be located. The agreement with the Morrill Construction Company of West Newton, the successful bidder, was signed on November 29, 1965. Another Special Town Meeting was called October 4th to act on funds for the Welfare Department for the balance of the year. This action was not approved by the Director of the Bureau of Accounts and a subsequent meeting was called November 8th. A quorum was not present and after two fifteen-minute recesses the meeting was adjourned. As a direct result the Board of Selectmen voted to create an emergency for the required sum for the Welfare Department which was approved by the office of the Director of Accounts.

The funds allotted by the State under Chapters 718 and 522 for work on Grove Street was expended completely. Any additional work on this street will be done under the Chapter 99 program, as was this year's construction. The railroad bridge on Grove Street was inspected by a railroad crew and work was commenced; however, a complete renovation is needed which should be undertaken this coming year by the railroad.

A further bond issue was passed by the Commonwealth under Chapter 679 of the Acts of 1965. The amount apportioned to Kingston is \$14,196.57. It was suggested by our Superintendent of Streets that it be used by the Highway Department to repair roads other than those under Chapter 90, which may be done only with the approval of the Massachusetts Department of Public Works. It is planned to do this work next year.

The firm of the Highway Department has proposed to the town to build to the town

June 11, 1906. A letter was received from the Department of Education, Division of Standards, that Chapter No. 100 of the Code of the State on August 3, 1906. Before this date, the number of towns of more than the number of towns of more than 100 inhabitants shall annually report to the Department the efforts of your Selectmen to secure the passage of the bill. It became mandatory to the State of New York and Measures George T. Platt, Jr., the State's Attorney employ him and that the State of New York. We wish to publicly express our appreciation of the capable manner in which he has executed his duties for many years.

Our Chairman, Mr. J. H. McLean, suggested that as a water supply for the town, it is important for our community that it should be secured as quickly as possible, if we are to protect ourselves from the drought of our town now and in the future. This was agreed to by the Board of Selectmen and the town. It was agreed to support an article of the town for this purpose. This resulted from a preliminary plan published by the Water Supply Commission, which was brought to our attention by Mr. L. McLean, our delegate to said commission. The next step proposed is to take a survey of the Silver Street Pumping Station, which is located at the Silver Lake. It appears to be a good one, but it could strangle the future growth of the town. Therefore, your Board met with the Water Supply Commission and Mr. Howard of the firm of William Howard & Co. at the time the above course of action was decided upon.

Respectfully,
HARLEY A. CADENHEAD, Chairman
WILLIAM A. McPHAIL
ROY L. McLEAN

ELIZABETH B. SAMPSON MEMORIAL FUND

Since its inception, the trustees of the Elizabeth B. Sampson Fund have been seeking an appropriate project that might serve as a fitting memorial to our benefactor. Though a number of suggestions have been seriously considered through the years, all failed in some degree to measure satisfactorily against the standards the trustees had established. The memorial should have permanence; it should commemorate Elizabeth Sampson's generosity for many generations. It should be in a form that would provide benefits to the whole community; not by its nature favor any one group or any one section of the town. Moreover, it seemed essential that the act of creating a valuable capital asset for the community should not at the same time create a sizeable burden in annual cost of operation or maintenance. Finally, the terms of the act originating the fund stipulated that the cost of this memorial was not to exceed \$25,000.

At long last the Conservation Committee has presented a project which meets all these conditions and is endorsed and recommended by the trustees. By gift and purchase the town has acquired upwards of seventy acres situated in the interior of the area bounded by Elm Street, South Street and Wapping Road and running down to Jones River. It is proposed to convert this into a park of roughly one hundred acres by purchasing some additional property and by developing an entrance through a lot to be acquired just beyond the bridge on Elm Street. Options and estimates indicate that some \$10,000. might be necessary for land acquisition and the balance of \$15,000. might then be employed to develop the park.

This area is almost exactly in the geographic center of the town—accessible in a matter of minutes from the most distant bound. It is proposed that aside from the construction of a suitable memorial entrance, a parking lot, breaking out fire roads, and some clearing out of deadfalls and underbrush that the whole park should be preserved in its natural condition. The plan envisages numerous trails, picnic areas, modification of the river at one point to permit swimming, but primarily it would make conveniently available a large natural wooded area bordered by two streams (Jones River and Furnace Brook)

secure against commercial or residential development. The growth of our own and neighboring communities makes it abundantly evident that every passing year will make this an asset of ever greater value to young and old. While the park would bear the Sampson name at its entrance, it is intended that these areas acquired by gift from others should bear suitable markers as evidence of their contributions to the dimensions of the park in its final form. Finally, it is the hope of the trustees that this may convey to future generations one pleasant aspect of the small country community that appealed to Elizabeth Sampson, to those who live here now, and to those who have enjoyed life in Kingston in the hundreds of years since its settlement.

As they have annually, the trustees reviewed numerous requests from a number of departments and recommends to the town those listed below. This year the total runs somewhat above the anticipated annual income, which has been supplemented by use of a portion of the small surplus accumulated from allotments of prior years not accepted by the town or unexpended by the department concerned.

- (1) Purchase of twelve more "tone radios" for the Fire Department used in alerting call firemen. A transmitter and eleven receivers were installed last year and have proved very effective. The recommended allotment would complete this project. \$1,500
- (2) Shelving, furniture and equipment for the library which would complete the current renovation project which has been financed in part by allotments of prior years. 2,000
- (3) Purchase of Christmas lighting equipment to be utilized in decorating the Town House or the adjoining Green. 300.
- (4) A two way radio for the Tree Warden's truck which would mean that all the town's public service departments are so equipped. 650.

(5) One-half the cost of a sixteen foot boat and 60 H. P. outboard motor for use by the Harbor Master on the condition that the town provides by regular appropriation an equivalent amount. 1,250

(6) An additional allotment to the town's cemetery for repair of and preservation of the stones and monuments. 500.

(7) One-half the cost of a new sidewalk snow plow on condition that the town provide by regular appropriation an equivalent amount. 2,500.

(8) One-half the cost of furniture and equipment required in renovating the Town House on condition that the town by regular appropriation provides an equivalent amount. 1,500.

\$10,200.

Although the trustees have agreed to recommend all the listed items in the amounts indicated, it remains possible that some modification of these proposals may be necessitated by the receipt of additional information or revised conditions brought to our attention prior to the annual town meeting.

REPORT OF THE PLANNING BOARD

This year was one of continual and steady growth for the town of Kingston. The number of subdivisions approved by the Planning Board increased for the year 1965. We have approved a total of 148 lots for this year. From this growth, and that being experienced by our neighboring towns, it is evident that the town of Kingston will grow considerably during the next decade.

In the light of the above, the Planning Board has been examining and exploring several possibilities to protect the town. We recognize that we cannot prohibit growth, yet we want to have proper rules and regulations to protect both the home owner and the town. In this way a development becomes an asset to the town and not a liability. At the present time we are examining Master Plans of other communities, and we are weighing the pros and cons of such a plan for the town. We have also worked closely with other town departments in the areas of land usage, sanitary landfill and the sanitary problem.

We regretfully report that we have lost the services of Mr. Horace C. Weston who chose not to run for re-election. Mr. Weston was our clerk for many years and his counsel and good judgment have been invaluable.

Mr. Kenneth J. Crum won election to the board and was chosen Clerk by its members.

Town Clerk, George W. Cushman, continues as our agent and is available, between meetings, to help those who have business with the board.

ASSESSORS' REPORT

It has been said that assessors today must be a combination of appraiser, lawyer, detective, judge, accountant, diplomat and tax student. The assessor is, likewise, the Public Official who in many jurisdictions is closest to the taxpayer.

The assessor occupies a position of trust and must have a thorough and abiding respect for the law. He must remember that his function is not to make the law but to administer it. There is no function of government more important than the assessment of property, and it is the duty of the assessors not only to realize this but to direct their efforts to bringing this realization to the taxpayer. We must set our tax rate on what you the citizens vote to spend to run your town. With this in mind, we have tried to perform our duties for the best interest of all and hereby submit the following report.

ASSESSORS' REPORT — 1965

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

As each year of existence for this Commission goes by its members realize that this business of Industrial Development is an area problem covering all of Southeastern Massachusetts, and in particular, our tie-in with Plymouth and Plympton under the guidance of the Plymouth Industrial Development Corporation, of which Corporation we are an active member. Despite all this we did have, during 1965, a number of direct inquiries, but again the lack of suitable and readily available landsites or buildings was still our major obstacle in inducing attractive industry to settle in Kingston.

Our meetings are still held the third Thursday of the month at 7:30 P.M. in the Town House. Any inquiries for assistance from existing business and industry in town, as well as prospects, will be welcomed. Visits from individuals who have any new ideas or would like to know more about this business of industrial development would indeed be most welcome.

Again we wish to thank all town departments, committees and individuals for their sincere co-operation throughout the year.

REPORT OF THE POLICE DEPARTMENT

Honorable Board of Selectmen
Kingston, Massachusetts
Gentlemen,

The report of the activities of the Police Department herewith respectfully submitted for the year ending December 31, 1965

This department has had the busiest year in its history. There were 119 more arrests made in 1965 than there were in 1964. This was largely due to the fact that 2 cruisers were on the more hours per day than they had been in the past. It is my intention to continue this manner of operation.

With the ever increasing amount of traffic going through our town, motor vehicle violations constituted a great number of the arrests made this past year. Despite the efforts of the department to enforce the laws of the road, there were still a number of motor vehicle arrests reported and investigated during the year. There were no fatalities recorded in town this year, and we have made every effort to make Kingston a safer place in which to live by prosecuting violators of the motor vehicle law when observed.

The Auxiliary Police officers of this department continue to train and practice when called on and it has been most gratifying to the members in which these civic minded men have responded. To them, a great deal of thanks.

I want to thank the Board of Selectmen for their help and concern for the citizens and look forward to a continued effort and understanding with them for the coming year.

REPORT OF THE SHELLFISH CONSTABLE

Considerable time and money was expended on our station for the purpose of transplanting clams from the "Grays Beach area" and the "Jones River Basin." This project was financed by our town budget and the Division of Marine Fisheries. Work on this program will continue again this coming year, as these tests have produced good results.

A total of 160 bushels of quahogs were planted this year and made into a winter grant for the year-round residents and property owners. Work on this program will be done on a larger scale next year.

It is with grateful appreciation that I extend my thanks to my Assistant, Art W. Glass, Jr., and to all those persons who contributed their support and assistance to me this year.

Respectfully submitted,

ANTONE J. CAZALE
Shellfish Constable

REPORT OF THE HARBOR MASTER

The number of calls to the aid in the Kingston area remained about the same as the previous year. During the boating season four rescues were made, including one near drowning.

A request has been made for a new boat for this Department in 1968.

This coming year I hope to have radio communication with Harbor Masters of Plymouth and Duxbury, a service we have needed for several years.

At this time I wish to thank all the Departments of the Town for the cooperation given me in the performance of my duties, with special thanks to my Assistant, Antone J. Cazale.

Respectfully submitted,

ASA W. GLASS, JR.
Harbor Master

REPORT OF THE FIRE ENGINEERS

As to be expected the number of alarms of fire have increased with the growth of the town.

The speed of responding to fire alarms has considerably improved with the installation of the Tone Radio System, the addition of three permanent firefighters plus the interest shown by the callmen. The Tone Radio System was purchased from the Elizabeth B. Sampson Memorial Fund.

The new International Rescue-Service truck arrived in time to assist at many of the calls, thereby relieving some of the burden from the engines and brush trucks.

During the year two fire-fighters were injured while on duty. One permanent man was totally disabled for several weeks; the other injury was sustained by a call-man who, however, was able to work at his regular job with difficulty.

In 1966 we are asking the voters to consider the replacement of the Ladder Truck. This piece of equipment which is twenty-four years old, and was built during the war years, has now become obsolete and possibly dangerous.

REPORT OF THE FOREST FIRE DEPARTMENT

Another year of severe drought increased the number of forest fires to a new high; the chief causes being malicious fire sets and children playing with matches.

The new Dodge four-wheel drive brushbreaker was put into service in June and has proven itself a most valuable piece of equipment.

There were many occasions during the year when the townspeople were refused burning permits due to the weather conditions, a fact which they graciously accepted.

The Mutual Aid System was used more than usual with Kingston both giving and receiving.

The highlight of the year occurred on October 31 when this department responded to twelve alarms. All of the fires were held under one acre with the assistance of the towns of Duxbury, Plymouth and Pembroke.

At this time I wish to thank all of the town employees and the Massachusetts Department of Natural Resources for their full cooperation during the year.

Adjusting fees collected to the amount of 50¢ and sealing fees of \$122.19 totaling \$122.69. A recheck of scales were made as requested by owner.

Office Hours: Tuesday 7 to 8:30 P.M.

Effective August 3, 1965 the duties of this office were taken over by the Commonwealth of Massachusetts, Division of Standards; however, your local Sealer continued until the end of August.

Respectfully submitted,

GEORGE T. PRATT, JR.

Sealer of Weights and Measures

REPORT OF THE MOTH DEPARTMENT

The diseased elms, fortunately again this year, were of a minimum. However, there were considerably more found on private property. On recommendation of the Agricultural college at Amherst, in the future, no trees will be removed on private property by the town unless they are endangering property.

At the present, there are six elms on town property which should be removed. This work has not been done due to lack of funds.

Respectfully submitted,

EARL C. PAULDING,

Moth Superintendent

REPORT OF THE TREE WARDEN

The overhead trimming of trees on town property was completed in the Rocky Nook section of the town. The same work was completed on Ring Road and South Street, and also on Grove Street, on which street the Highway Department contributed their services.

This year, as in the past, trees were planted along the road sides in new developments. Many requests were received for additional plantings, which were not fulfilled due to insufficient funds. It is hoped that the necessary funds will be provided next year, so that the requests made can be taken care of in the Spring.

Once again, this department will ask the voters at the annual meeting in March 1966 for the purchase of a Chipper. As explained previously, it cannot be over-emphasized as to its value to the town. The efficient manner of disposal of branches and brush will eliminate the disposal problem at the town dump, thereby eliminating in turn, the necessity for burning; also the mulch obtained can be effectively used by the Highway Department along side the roads.

A request has been made to the Trustees of the Elizabeth B. Sampson Fund for their recommendation for the purchase of a two-way radio for installation in the town owned truck of this department. It is sincerely hoped that the voters will accept the recommendation as it will enable this department to give much more prompt and efficient service.

Respectfully submitted,

EARL C. PAULDING,

Tree Warden

REPORT OF THE DIRECTOR OF CIVIL DEFENSE

The principal activities of the Kingston Civil Defense during 1965 have centered around the Auxiliary Police and the newly formed underwater rescue team. This is in addition to a continuance of monthly radio drills involving contact among the towns in Sector 2-B with headquarters in Hanson.

The Auxiliary Police group, with 21 enrollees, has been co-operative in carrying out its volunteer assignments of church cross-walk duty and desk time at the Police Station. They also have been available for duty on holidays and other periods when disturbances have been impending. This group has also endeavored to maintain a semi-monthly meeting schedule for purposes of training and maintaining duty schedules.

During the summer and early fall the underwater rescue team held regular drills at pools and beaches in Kingston, Plymouth and Middleboro. This group has 12 enrollees and has had its application for official recognition accepted by the Massachusetts Civil Defense Agency in Framingham.

Mr. John B. Drew, Kingston Civil Defense Deputy Director, successfully completed a radiological instructor's training course at Bridgewater and is duly qualified to instruct in radiological monitoring.

Mr. Vernon B. Cushman has again been most faithful in his duties as Kingston Civil Defense Radio Officer.

This year, for the first time, Kingston was granted matching funds by the Massachusetts Civil Defense Agency. The original expenditure in this instance was used for the purchase of rubber boots for the Auxiliary Police. The reimbursement was deposited with the Town Collector and became a part of the general cash fund.

Seventeen official trips were made to Sector 2-B headquarters in Hanson, plus five official trips to Taunton Surplus Depot.

I wish to extend thanks to Chief of Police James R. Goonan, Sergeant Alfred D. Darsch, Chief of the Fire Department John B. West, Highway Superintendent Weldon A. Thomas, Civil Defense Deputy Director John B. Drew, as well as to Dr. William C. Gould, Edward H. Lubke and Charles W. Lawrence for their assistance at various times during 1965. I am always most appreciative of the co-operation extended by Town Accountant Mrs. Irma A. Ruffini and her assistants.

Thanks also to Mr. Ralph W. Cox and the Old Colony Chapter, American Red Cross for the donation of a standard First Aid kit to Kingston Civil Defense; and to Mr. Francis E. Felt and Mr. Chester L. Heckman for the use of their swimming pools by the Scuba group.

Respectfully submitted,

REPORT OF THE BOARD OF HEALTH

All restaurants and other food handling establishments were in receipt of the new minimum standards for food handling as required by the State Department of Public Health. The required inspections were made by a Registered Sanitarian, and the permits issued after compliance with the minimum standards. We are particularly pleased in the co-operation that is concerned.

It is logical that with the scientific knowledge in Sanitary method that is available to all, that these be put to practice. We, as individuals travel throughout this nation to learn and eat in establishments that we have no personal knowledge of. Therefore, it is supposed by us that the local Health authorities are protecting us, and this is as it should be.

Many problems beset the Board this year, many complaints some were unfounded and some were problems in fact. All were investigated, the facts ascertained and the required action taken.

After bacteriological analysis of the areas as shown below were made, the Board of Health felt that in the various swimming areas there was no present danger to the swimmer.

Coliform Bacteria per 100 ml Multitube MPN

	July 20	Aug. 11	Aug. 16	Aug. 23
Town Wharf	36	43.0	23.0	93.0
Rocky Neck Point	36	43.0	150.0	43.0
Russell's Pond	91	150.0	7.3	3.6
Brewster Park	23.0	249.0	93.0	23.0
Cole Street	3.6	33.0	150.0	24.0
Gray's Beach	2.6	240.0	23.0	43.0

The State Department of Public Health has informed the local Board that a count up to 240.0 is considered safe for bathing purposes.

Several bacteriological tests were made in the remaining streams and it was found that corrective measures were required, and was so acted upon.

REPORT OF THE INSPECTOR OF ANIMALS AND INSPECTOR OF SLAUGHTERING

During the past year we have seen a profound drop in the number of cattle shipped into Kingston from Vermont, New York, and Canada. There has been a corresponding increase in the number of riding horses in town.

This year, 15 dogs were quarantined on suspicion of rabies because of bites imposed. However, all of these dogs were released after the customary 10 day observation period, inasmuch as no signs of rabies appeared. Reports of the foregoing cases were forwarded to the proper State authorities.

There have been no cases of slaughtering in Kingston during the past year.

The annual inspection of animals and the premises in which they were kept was made and the report forwarded to the Division of Livestock Disease Control.

I wish to thank Mrs. Irma A. Ruffini and the members of the Board of Health for their cooperation in organizing these inspections.

Respectfully submitted,

RAYMOND RUSSO, D.V.M.,
Inspector of Animals and Slaughtering

REPORT OF THE
PLYMOUTH COMMUNITY NURSE ASSOCIATION

We are submitting the following Annual Nursing Service Report for the year 1965.

During the twelve month period, January 1, 1965, through December 31, 1965, a total of 999 visits were made to patients in Kingston, by the P.C.N.A. nurses, an increase of 104 over those made in 1964. Of this number of visits, 475 were made on behalf of the Kingston Health Department; also an increase of 145 over those made the previous year. The nursing service breakdown is as follows:

- 324—General Nursing Care
- 158—Maternity
 - (16—Antepartum)
 - (75—Postpartum)
 - (73—Newborn)
- 113—Tuberculosis follow-up
- 41—Other Communicable Disease
- 8—Infant Health Guidance
- 19—Preschool Health Guidance
- 2—School Health Guidance
- 69—Adult Health Guidance
- 60—Unclassified (Not home or not found)

Eleven Well Child Conferences were held during 1965, at which 217 infants and preschool children were seen and examined by Richard O. Elliott, M.D., our W.C.C. pediatrician. A total of fifty-eight Tuberculosis skin tests were applied at these conferences.

In January, 1965, we began our immunization program in Kingston on a monthly basis, in conjunction with the Well Child Conferences. In December, we added measles to the list of diseases for which we offer protection. During the past year, 233 children were immunized in the Town of Kingston.

Our nurses continue to make visits to all Kingston mothers and their newborn, upon returning home from the hospital.

We also continue to make visits to patients in Kingston with problems relating to Tuberculosis.

We are pleased to be of any possible service to the Town of Kingston and would like to express our thanks to the Board of Selectmen and the Health Department in Kingston, for their fine cooperation throughout the year.

Respectfully submitted,

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT
KINGSTON - ANNUAL REPORT FOR 1963

I wish to report on the Project's activities during the past year.

The extremely dry weather enabled us to put more time on our permanent control measures with our power equipment. We are now using a large auger and trencher this year which has shown to be one of the most important phases of our program. A control measure such as trenching eliminates concentrated breeding areas. Work of this type of control is also not as disturbing to the mosquito population in surrounding areas as spraying but may be affected by wind-borne mosquitoes.

Our annual control operations are to supplement permanent phases of control. Control of damage to our environment from mosquitoes is one of the most important areas to be treated and in areas which are not treated, we will continue to work closely with recommendations and suggestions of the State Pesticide Board, Department of Public Health and the Department of Natural Resources.

Requests for mosquito spraying for nuisance mosquitoes are both expensive and time consuming. A program of this type prevents us from meeting our need for permanent control measures in the breeding areas. We maintain a weekly inspection of filter systems, drains, flower pots, parks and camping sites. These are treated if necessary. Catch basins require constant inspection and treatment. Calls from property owners for individual spray applications are increasing yearly, and seriously hampering our permanent control measures for which the Project was organized. Many towns cooperate with us in the adult control phase, thus allowing this Project to conduct the permanent phases of mosquito control.

Homeowners could aid themselves tremendously by frequent changing of water in birdbaths, wading pools etc., plus eliminating old tires, car bodies and clogged gutters.

My gratitude to your town warden, highway superintendent and your town officials who have been most cooperative.

Respectfully submitted,

M. CURRIE BEATON, JR.,
Superintendent

REPORT OF THE HIGHWAY SUPERINTENDENT

Grove Street construction continued with Chapter 90 and Chapter 822 funds. Keith Avenue was accepted and constructed as a town road. Chapter 90 Maintenance work on Landing Road, Pembroke Street, Elm Street and Wapping Road consisted of mowing grass, cutting brush, patching surfaces; also guard posts were realigned, replaced and painted. Type I Bituminous Concrete surface was placed on West Avenue, Chilton Avenue, Bagnell Street and Cole Street. Drainage was installed in various locations on Pembroke Street, Cole Street, Landing Road, Sylvia Place, Smith's Lane and the road to the town dump.

A new dump truck and new automatic sander purchased this year have proven very satisfactory to meet the department's needs. We are requesting the purchase of a new truck to replace a 1956 GMC dump truck and a new sidewalk tractor to replace the present 1953 Oliver Sidewalk Tractor.

William B. Johnson resigned to accept work elsewhere and Edward R. Randall was hired as his replacement.

It is a pleasure working with the men of this department. The town is indeed fortunate to have these men who are capable and willing to render service to the town.

Respectfully submitted,

WELDON A. THOMAS,
Superintendent of Streets

The Board of Public Welfare has met the first Wednesday of each month at 7 P.M. in the Town Hall Welfare Office. Special meetings were held when necessary. At this year's organizational meeting Roy L. McLean was elected Chairman and Edna L. Holmes, Secretary.

The Town approved funds to renovate the old Grange Hall to house our office. It is expected that we will be moved into our new quarters when this report is distributed. We are sure that this added space will serve our needs for many years.

This year the Medicare program through Social Security Amendment became law and becomes effective July 1, 1966. This will have a tremendous effect on our programs of Assistance. We feel that a large increase in hospital and nursing homes rates is imminent, inasmuch as the Medicare law insists upon increased services in these facilities. All of our Old Age Assistance recipients will be enrolled in the Hospital and Supplemental Insurance under this law. We will also have a new program for separate Medical Assistance under the Medicare law.

We are submitting to the voters for approval one appropriation called Public Assistance—Assistance to cover all our programs of assistance. If this is approved in this manner it will eliminate the appropriating of five separate budget items with a sixth for next year. We will still submit our detailed report under each category. This in itself will eliminate some of our Administration detail. We also hope it will eliminate the necessity of Special Town Meetings. There have been occasions in the past when we have run out of funds under one category but had enough funds in another category but been unable to use them.

This year a study was conducted of the Welfare structure throughout the Commonwealth. The study has been completed with one of the recommendations being State Administration. We have various objections at this time for the State assuming the Welfare programs. The State is in poor financial condition and has never been able to pay its share of our assistance programs promptly and no matter what tax program is devised they would not be in financial condition to assume the whole

burden of our assistance programs at this time. We feel that the people in our Town in need of assistance are the Town's responsibility and can best be served at the local level. After the detailed report of the Study Committee has been submitted we will be in touch with our State Representatives to give them our feelings in this matter.

We wish at this time to thank the other Town Departments, the State Department of Public Welfare and citizens of the Town for their continued cooperation with this department.

Respectfully submitted,

Librarian's Report

The past year has been especially busy at the Library. The opening of our new Young People's Wing on March 7th was attended by hundreds of townspeople, and has since proved a great delight to everyone. It has been admired by all the patrons of the Library. A great many students use it daily as well as in the evening for reference and for book reviewing. Their work has been aided by the scores of new books, several encyclopedias and many other reference books which have been added this year.

The Friends of the Library have sponsored Story Hours for the younger children during the summer, and this fall they initiated the showing of educational films. Both programs have been very well attended and enjoyed.

Our readers have been very enthusiastic and pleased with our many new and beautiful books. Statistics for the year show a marked increase in the circulation of books and the registration of borrowers.

Mrs. Roger K. Shiverick, Mrs. Wilfred S. Galletti and I wish to thank the Friends of the Library, the Kingston Reading Club, St. Joseph Church and the many other devoted patrons who have so generously contributed books, magazines and flowers.

Trustee's Report

With the opening of the new Young People's Wing and the renovated lower floor of the main building, our planning of several years became a reality, and we are pleased that these new quarters have brought our facilities in line with the needs of our townspeople. We have had many favorable comments from our own patrons as well as from visitors from other towns. It was indeed timely that this project was initiated in 1963 when Federal grants of \$501 were allowed for library construction, as current grants for similar work are now being made on a 25% basis. Regarding the successful completion of our project, we express our appreciation to the architect, Mr. Charles Strickland, and the contractor, Mr. Kirby Kellar, for their co-operation and interest in this endeavor.

We are also glad to report that repairs to the original building were practically completed in December. These included repainting of the exterior woodwork, repointing and waterproofing of the brick exterior, restoring portions of the eaves which had rotted away and repairs to the roof. The exterior of this building is now in good condition which is certainly most justified for one of the most beautiful of town properties.

In our overall plans of building and remodeling, the only remaining area is the main floor of the Library, and we hope that certain improvements may be completed in this room during the coming year. The walls and woodwork should be painted, and the floor requires attention. The use of carpet in the Young People's Wing has proved so satisfactory that we feel that this would be the best solution to the floor problem in this other area. We also hope that it will be possible to provide more shelf space and some new equipment in the reading room.

We trust that we are not over-emphasizing in viewing this year as one of great accomplishment. The availability of books and other reference material has been greatly enhanced, especially for students of all ages to whom we believe our efforts are well directed. Both Librarians and Trustees are eager to cooperate in filling the needs of our townspeople and will welcome any suggestions or requests for meeting their additional requirements.

It is again difficult to close this report and include by name all of those who have contributed to the success of the past year. More than ever, many have been helpful in many different ways, and to all of them we are most grateful.

REPORT OF THE PLAYGROUND COMMISSION

Under the long term maintenance program at the Reed Community Building, the following projects were carried out in 1965: (1) a fire alarm system was installed; (2) a new, three-tab sink was installed in the kitchen; (3) shower room plumbing was replaced; and (4) the rewiring and lighting program was continued.

The summer playground program sponsored by the Commission under the supervision of Antone Spath and Miss Daria Mastanari was well attended and is growing in scope to the point where an assistant will be needed in 1966.

There were 370 requests for use of the building, of which 9 were paid rentals totalling \$692.00. Organizations using the building under the free rental policy included Girl Scouts, Boy Scouts, Cub Scouts, church organizations, Hilltop Basketball League, Kingston Civic Association, Reed Community Club, and a number of other non-profit organizations.

The principal maintenance projects for 1966 include repairs to the basement ceiling and modernization of the shower room.

The Commission meets the third Tuesday of each month at 7:30 P.M. in the Reed Community Building.

REPORT OF THE DIRECTOR OF VETERANS' SERVICES

I hereby submit the annual report of the Office of Veterans' Services for the year ending December 31, 1965.

Active cases, January 1, 1965	14
New cases during 1965	10
Cases closed during 1965	12
Cases denied	4
Out of town cases processed	5
Disability pensions processed and received	3
Veterans hospitalized	5
Miscellaneous contacts (legal, education, insurance, loans, G.I. bill, etc.)	53
Active cases 31 December 1965	12

Effective 1 March 1966 the settlement law will be discontinued. Under the old law a veteran had to live in a town five years before he gained a settlement. Under the new law the town into which a veteran moves must immediately assume responsibility for his case. The financial impact of this change cannot be determined at this time.

The facilities of this office are available each Tuesday evening at the Kingston Town Office between the hours of 8:00 and 10:00 P.M.

Respectfully submitted,

LAURENCE P. REID,
Director

REPORT OF THE PARK DEPARTMENT

In the past year the Park Dept. has changed the appearance at Kingston Center by returning "Ye Olde Horse-Watering Trough" and seeding of grass at the former railroad station. Because of the dry spell the seed did not take hold as well as desired. We hope to connect the watering trough with a drinking tub-ber during the coming year, and also to place a few shrubs and benches, further improving the scene.

The Park's triangle at the corner of Elm and Main Sts. was taken over by the Highway Dept. as that point was ascertained to be a school bus hazard. Two wooden flagpoles were freshly painted and new nylon halyards were installed on all three flag poles under the jurisdiction of this department.

The bath house at Gray's Beach had to be painted three times to cover up the work of vandals. The new ticket booth was cement constructed to prevent the costly repairs that we had with the wooden structure in the past, which was repeatedly knocked over and damaged. Because there were no serious Northeast storms, the beach stood up pretty well as far as washouts.

A letter to the Selectmen (by the late Mrs. Edward J. Lydon) pertaining to the charging of autos on weekdays as well as Saturdays and Sundays was forwarded to the Park Dept. We were in the position of having insufficient labor funds when we decided not to charge on week days. In the coming year we hope to overcome this problem.

In summing up, it is our opinion that, in the best interests of the town, the Park Department should be absorbed by the Playground Department, changing the title to "Parks and Playgrounds" and giving the townspeople the economy of two departments in one. This move could cut expenses considerably and give greater service. If this new combined department had two permanent, or full-time men, (one is currently employed by the Playground Dept.), one man could cover the other during vacations and share the responsibility for lawn-mowing, building tables, painting, ticket-selling at the beach etc.

We hope that if anyone has anything they wish to discuss with us that they will feel free to come to our regular meetings

at any time. Regular meetings are held the second Tuesday of each month beginning at 8 p.m. in the Town House.

Respectfully submitted,

ALPHONSO J. CAVICCHI, Jr., Chairman
EARL C. PAULDING

PLYMOUTH COUNTY EXTENSION SERVICE

by Robert B. Ewing,

County Agent-Manager and Regional Coordinator

The primary responsibility of the Extension Service is as the law states "to aid in diffusing among the people of the United States useful and practical information on the subjects relative to Agriculture and Home Economics and to encourage the application of same."

Resources of the University of Massachusetts and the United States Department of Agriculture are available to the Staff of the Plymouth County Extension Service because of a mutual assistance agreement. Members of the staff provide educational information pertaining to Agriculture, Home Economics and 4-H Club Work, through correspondence — newspapers and radio — meetings — office and telephone calls — and farm and home visits.

To make this service available to you, funds are provided by the Federal, State and County Governments. Thus the name — Cooperative Extension Service.

In March 1965, the Southeast Extension Region was organized for the purpose of primarily servicing the commercial farmers in the Counties of Barnstable, Bristol, Norfolk and Plymouth.

Briefly this means that the Agricultural Agent formerly servicing Agriculture in one county now services the Southeast Extension Region. He is responsible for one or two commodity programs only, i.e. Dairy and Livestock; Poultry and Turkeys; Fruit and Vegetables; Floriculture; Nurseries; Misc. Horticulture.

By concentrating on his particular program(s) the agent can keep up-to-date on the latest research; receive advanced training at the University of Massachusetts and offer the farmer a more effective service.

Make full use of the Extension Service, but remember that although the Extension Service furnishes the information, it is you who makes the decision as to how the information may be used to best advantage.

Requests for information can be directed to the Plymouth County Extension Service, Court House, Brockton, Massachusetts 02401.

The Board of Trustees, appointed by the Plymouth County Commissioners, administer the Plymouth County Extension Service program and is composed of the following members:

Mr. Gilbert Blackledge, Whitman, Chairman
Mr. George Ridder, East Bridgewater
Mr. Robert Chisholm, West Bridgewater
Mr. Lewis Billings, Plympton
Mrs. Mabel Chandler, Duxbury
Mr. John Duffy, Halifax
Mrs. Gladys Gibbs, Hanover
Mr. Robert Hammond, Wareham
Mr. Fred Freidenfeld, Middleboro

REPORT OF THE WATERFRONT COMMITTEE

During the past year the Waterfront Committee has continued its program for wharf and beach improvements at the Town Landing. New pilings were installed and additional cement work undertaken so that the entire wharf has been encircled with capping which should serve as a retainer. More sand was spread to further improve both the north and south sides of the wharf.

A new float has been built and will be ready for the 1966 boating season. This addition should enable most of the boats moored in the river to dock at low tide as it is intended to reach to deeper water.

The necessary repairs and routine painting of the floats were completed prior to the opening of the 1965 season. New signs were erected and arrangements made for rubbish disposal.

During the ensuing year it is anticipated that further improvements, presently under consideration, will be made.

Respectfully submitted,

BENJAMIN F. WALKER, Chairman
DONALD C. GAULEY, Secretary
LAWRENCE S. MORTON

REPORT OF THE FISH COMMITTEE

During April and May, 1965, there was a very good catch of herring (alewives) on the Jones River and with all 4 runs a little in good working order and the brook cleaned, the fish had no trouble getting up into Sylvia Place Pond and Russell's Pond in spring.

As during the past few years several thousand large herring were hauled by tank truck from the Cape Cod Canal and placed in Russell's Pond. The addition of these large fish here before has noticeably improved the size of our herring.

The No. 1 ladder at the Pumping Station is still usable for another year due again to the cooperation of Mr. Arthur J. Dupuis, Construction Foreman of the Department of Natural Resources, Division of Marine Fisheries. This ladder is over 4 years old and has stood up very well, but is badly weakened in several places and it will be necessary to rebuild the whole run. This will be a major project with a sizeable cost, but if we can again secure the expert services of Mr. Dupuis he can take us over for one more year.

We were not successful in securing Smelt Spawn from the Marine Fisheries Division this last Spring, but as the result of the splendid success with the 40 trays of spawn allotted to us the previous Spring which hatched in our Jones River and came back "up river" again this Spring to spawn, proved a net to behold. While they seldom stay over more than one year the eggs they dropped made the area about the Pumping Station a bright golden hue as was also the same at several other spots further down river.

WATER COMMISSIONERS' REPORT

Your Water Department has completed another year. As 1965 draws to a close, your Water Commissioners look back upon this year as one of great pleasure and satisfaction.

A review of the activities for the year shows that there were many improvements and we are overflowing with ideas for the future of the Water Department in order that your town will not be in the critical condition of a shortage of water, similar to what many of our neighboring towns and cities are experiencing.

A Year of Accomplishment

24 Services Replaced or Renewed
4 New Hydrants Were Installed
3 Hydrants Replaced
3 Hydrants Relocated for the Highway Department on Grove Street

Report on New Facilities

The new Winthrop Street Well proved very satisfactory during the dry spell experienced during the summer months. The two car garage approved at the 1965 annual town meeting is now being constructed on South Street as this report goes to the printers.

Searching for Additional Water Supply

Again this year, we continued the search for additional water supply. There were twenty-six (26) 2½ inch test holes drilled to 225 feet in several locations of the town. The results were not favorable.

Water Supply Study

By an appointment made by the Board of Selectmen of the Town of Kingston, Roy L. McLean is now serving on the Central Plymouth County Water District Commission under Chapter 4 of the Acts of 1963 relative to the authorizing of the City of Brockton to extend its source of water supply. Camp, Dresser and McKee, consulting engineering of Boston filed with the Central Plymouth County Water District Commission, their "Water Supply Study" dated September 1963. There are many aspects of "danger" in this report to our supply of water. Your Water Commissioners must take every necessary step to preclude the encroachment of Brockton on Kingston's vital water resources. This we did in 1964 under the direction of Mr. John J. Moore who was a member of the Commission at that time. We have discussed this vital matter with the Board of Selectmen and they have concurred with us in sponsoring an article in the 1965 Warrant to employ engineers to make an engineering study of the water supply needs of the Town of Kingston for the next fifty years.

The Future

1. To Continue the Study of Well Sites—Let us repeat words that we gave in our report of 1964 in reference to additional wells. "This is a very important function for your Water Commissioners; to continue this study. As we grow more and more, water is going to be needed and available spots for good wells are going to become scarcer and scarcer. This is the time to buy land that has suitable and favorable water sites for future wells. WE CANNOT OVEREMPHASIZE THIS MATTER."

2. Replacing Water Mains—The Town of Kingston, in order to supply enough water and adequate fire protection, must replace the existing inadequately sized pipe from the Reservoir, along Indian Pond Road, Elm and Brook Streets to Main Street as well as close the loop on Winthrop Street.

Kingston's population has increased by one thousand people in the past ten years and this trend is expected to continue. In view of this increase, it is necessary to replace the existing pipe, which is inadequate, not only to meet present demands but also to satisfy the increasing future requirements.

Therefore, the Town of Kingston must, in the earliest possible future, begin the proposed project of improvements and additions to the existing water system, in order to insure adequate fire protection and to meet the increasing demands of the Community.

This project is estimated to cost \$200,000. We hope to obtain federal assistance and if a federal grant is approved, they will provide approximately 50% of the cost. However, if our application is denied, the Water Commissioners feel that this project should be done without further delay and that the \$200,000, be provided for this purpose by a bond issue.

3. To Replace the 4 Inch Main on Foster Lane with a 6 Inch Main. This is necessary to meet the needs and the requirements of the citizens of this Lane. The cost will be approximately \$5,000.

Photographs of our System

Last year in our 1964 report we showed you pictures of the Winthrop Street well and the interior view of the new pump installed at Winthrop Street. We thought we would continue this program in order that you may be familiar with our several wells and buildings and therefore this year we are showing you photographs of the Elm Street Pumping Station built in 1936, the pump which is run by water power and a view of Jones River that surrounds this station.

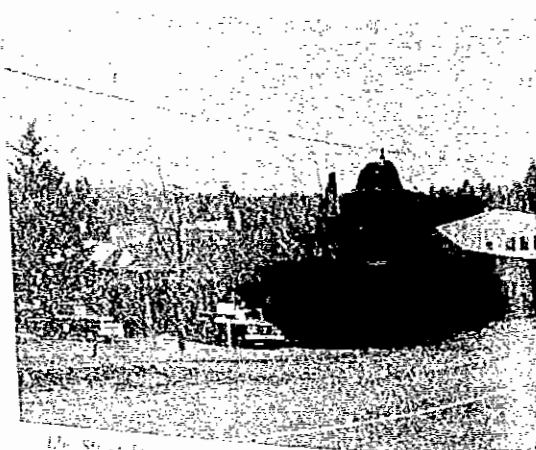

Conclusion

May we close, adding to our appreciation of the continued loyalty and help, our gratitude to all of our citizens. In all our services as Water Commissioners, no single request for help or cooperation has ever been refused by even one single department or citizen. For that we are humbly grateful. We believe the Water Department, its fine employees and citizens are harmonious and united in every nook and corner of this fine town.

and we have a team under the able guidance of all the
 officers and men who have successfully every day
 and every night that lies ahead

7:00 a.m., no-school elementary only.

REPORT OF THE SCHOOL COMMITTEE

In 1965 a great deal was accomplished toward the fundamental purpose, doing an increasingly better job at Kington Elementary School.

A year ago some things were underway and others in effect.

The post vacant since the elevation of our present Superintendent two years ago was filled with the election of a new Superintendent John F. Maloney.

The Superintendent's office was moved from our old building authorized by vote of the Silver Lake town meeting.

Our French program, based on the Channel 2 TV series, at last been augmented with the services of a French teacher, a teacher assistant with greatly improved results.

The long standing "chronological age" criterion of readiness or aptitude for learning has been modified. There will now be two youngsters, one born December 31, the other born January 1, necessarily re-assigned a grade apart and thus a year apart in their school careers. Now children born September 1 and February 1 will, with advice of parents and school authorities alike, be placed in the class most likely to be best for their learning interest.

Uniform testing against regional and national tests is in full effect. Our "first look" at this new data supports the conclusion that our elementary curriculum . . . and its presentation . . . are very good indeed. In areas that appeared to require strengthening, we have already taken steps to do just that.

Among the major support phases of school operation this past year were these:

The front entrance of the original building was extensively repaired under the supervision of a registered architect to eliminate a severe leak which had plagued us since the construction of school.

Another three year bus contract was awarded. As an indicator of growth, our school transportation system is now operating with eight new buses for the first time. School population is within a half dozen pupils of full school capacity. Twenty classrooms of thirty students each fills our school and our present population leaves us about one percent off this mark.

We have, therefore notified the Regional School of our intention to take over the Maple Avenue School in the fall of 1966 for two elementary classrooms. This action, based on our estimate of pupil enrollment, will ease the school housing problem in grades 1 through 6 for perhaps two more years while the town debates on a long range solution and carries it out.

At least in identifying possible courses of action for the town to consider we asked six respected citizens to work on this specific problem. Committee members were Mr. Alphonso Cavicchi, Jr., Chairman, Mrs. Ann Lapinski, Secretary, Mrs. Barbara Scheid, Mr. Ralph Fortini, Jr., Mr. Henry Lemieux, and Mr. Edgar Irving, II. Their report, submitted December 29, 1965, after a seven-month study, is an excellent review of the present situation and prospects. It will be the basis of recommendations we make to the Town Meeting.

Periodically it is desirable to look at school operating costs in some detail. The best "yardstick" is per pupil cost, that is, the cost necessary to educate one child for one year. Some elements of school expense have gone up in recent years simply because things cost more. In an effort to keep our excellent staff at a suitable competitive salary level it has been necessary to raise their account as well. But some of the increased expenses have come out of a long standing policy toward enrichment of the school curriculum. Considered improvements have been effected in some degree every year. These are costs that could have been avoided, to be sure, but not if Kington's youngsters were to have the same educational advantages others do in this state and nation.

In the last decade the combination of increased costs and enriched programs have amounted to a long term per pupil cost increase of almost exactly 57 per cent. We feel this is reasonable in the light of other cost-of-service trends, and the very substantial advances in education which have been made. Here is the trend data illustrating this:

Per Pupil Costs

Year	True \$1 per Year	Actual Results	Variance
1957	\$298.	\$284.	-\$14
1958	313.	292.	-21
1959	329.	324.	-5
1960	346.	364.	+18.
1961	363.	383.	+22.
1962	382.	405.	+23
1963	400.	405.	+5
1964	420.	405.	-15
1965	441.	428.	-13.
1966	464.	464.	none

Thomas Jefferson put it this way: "Dream of an aristocracy of achievement rising out of a democracy of opportunity" It is the opportunity we must offer; our youngsters can be counted on to do the rest.

Respectfully submitted,

KINGSTON SCHOOL COMMITTEE

REPORT OF THE SUPERINTENDENT OF SCHOOLS — 1965

It's been said that in the next ten years man's knowledge will double. This means that this year's second grade pupils will be expected to acquire a fount of knowledge not yet dreamed of by today's high school graduates. One needs only to recall the remarkable advances made in the fields of science, medicine, engineering, and mathematics in order to try to measure the demands which will be made of the graduate ten years hence. This, then, is the job of the public schools — to provide the know-how required to meet the needs of this future. It cannot be accomplished with tools which were adequate ten years ago. It requires new training for teachers, revised curricula for our children, and adequate facilities and budgets to carry it out. Hopefully our local taxpayer will be assisted by Federal and State funds to make this fiscally possible. Our school department is deeply aware of this tremendous responsibility and asks the understanding and support of the citizens of our towns.

Sections of this report are extracted from the annual reports of the individual principals. I have taken the liberty of reducing the amount, but hope I have not omitted any significant points which they would like emphasized. On a few occasions there are direct quotes from these reports.

School Union

As a member town in the Superintendency Union No. 31, Kingston has shared in the benefits and participated in the activities of this joint educational effort. Under the Supervision of Elementary Curriculum Coordinator, Mrs. Nell Stegmater, we are experiencing our first year in two important programs — the revised first grade admissions policy and the union-wide adoption of the new math series. While it is too soon to reliably evaluate the relative success of these programs, early reports seem to indicate very satisfactory progress. Parents were most cooperative with the schools in regard to first grade testing required for admission. Parents and pupils seem excited and are successfully adjusting to "modern math." Attendance at parent orientation math meetings was most gratifying and a testimony to parents' interest in the education of their children.

T. V. French has become more productive and meaningful by the addition of French-speaking teaching assistant, Mrs. Angele Gilman, who works with the Union pupils and teachers of

grades 4, 5 and 6. Other programs from Channel 2, WOHN-TV Boston, are also used to enrich classes in Science, Language Literature and Social Studies.

All elementary schools and the Silver Lake Regional High School were the subject of a survey by the Massachusetts Department of Education at the request of their respective school committees and upon the recommendation of the Superintendent. The reports have not yet been received by the committees.

Curriculum plans for the coming year include a Reading Workshop under the supervision of Mrs. Stegmader and reading experts from Boston University and the State Department of Education. All elementary teachers will be involved in the survey of reading techniques and reading systems. Hoped for this project will update a most vital segment of the elementary curriculum.

Administratively the Union has now joined with the Region in a Central Administration Building located on Pembroke Street, Kingston, near the Silver Lake High School. This project was completed under the Regional Vocational School Committee Department. Moving Day was October first. This edifice serves as a business office for all school departments as well as an educational service center. Many expanded services are now more available with this centralized facility.

Silver Lake Regional High School

Arthur P. Silvester, Principal, reports improved activities in the area of course at the junior high level by the addition of a full time instructor. Spanish IV has been added to the curriculum. Changes in other aspects of the curriculum, which are not feasible in this period of serious overpopulation. Note is made that many members of our staff are availing themselves of the opportunity for special training in the fields of science, social studies, mathematics, made possible under the national sponsoring agencies.

Much time and study is being given by Mr. Silvester and his staff on the curriculum and physical problems to be faced with the separation of grades 7 and 8 from grades 9 to 12. A partial list of curriculum projections include remedial reading

speech and creative writing courses in the English department; more commercial mathematics and a course in modern math for seniors; a second year in Physics and Chemistry; and an extension of United States History from a two-semester to a three-semester course.

Plant review continues with concern expressed over the need for adapting the present building to the needs of a dynamic high school program. Areas needing renovation and expansion in library, science, physical education, industrial arts, administration and guidance. In fact, program projections used by the principal for a potential grade 9-12 enrollment of 1200 pupils, predicted by 1968, brings the following observations from Mr. Silvester's report:

"The evidence from this procedure suggests that actually a shortage of space will exist for a 1200-pupil four year senior high school. The needs of a senior high school, while similar to those of the junior high, are obviously more specialized and technical."

Vocational School

Irving H. Binns, Director, reports several areas of improvement in the vocational school. A new division of horticulture has been added to the Agriculture Department with the physical addition of a greenhouse. Additional classroom space has been gained from storage areas and the former business office for two technical teaching spaces, one for English, the other for technical drawing and carpentry. Considerable physical change has also been accomplished in the shop areas to make more efficient use of available spaces.

In the area of program and curriculum he reports:

"Most important are certain revisions in program and curriculum which increase the scope of offerings to vocational students. Among several examples should be mentioned the splitting of trade-related programs into definite areas of mathematics, drafting, practical physics and trade theory, each with its own schedule and grade; the addition of formal courses in elementary and advanced algebra for selected students; the extensive use of films and filmstrips in the automotive department to bring into the curriculum the most recent automotive

innovations; improved drafting standards in the carpentry department through increased use of overhead projection techniques and the availability of a blueprint machine; the addition of courses in horticulture and greenhouse management in the agriculture department; an enlarged physical fitness program brought about by the doubling of time available for physical education; and a greater concern for student scholarship arrived at through a composite faculty grade in our policy for each student.

Three Manpower Development Training courses were completed during the year and a fourth carries into the new year for about a month. These courses, initiated by the local office of the Division of Employment Security and federally financed, vary in length from ten to forty-two weeks and have trained over fifty men and women from our community for practical employment. Three of the courses were conducted in the shops thus keeping these areas in use twelve hours a day for much of the school year. The vocational day school benefits to some extent from the equipment supplied for these courses.

Expansion of vocational opportunities for students at Silver Lake is long overdue. The Silver Lake Committee recommends joining with several neighboring towns in studying the possibilities of a regional vocational school. This should not preclude continued study of a vocational addition at Silver Lake.

Kingston Elementary School

Kingston's elementary enrollment has increased 19 percent from 1962 to 1965 and has been absorbing available classroom at the rate of one a year since our new addition was completed in 1959. All 29 rooms are occupied and plans are being prepared for using the Maple Avenue School next September. It would appear we have a two-year grace period before a new building is needed. Needless to say, early action is necessary if we are to meet this deadline.

Miss Esther DiMarzio, Principal, reports on the success of the lobby display case, a joint project of the School Committee and the Parent Teachers' Association. Shelves on either side of this case have been the beginning of a school library. Plans are being formulated to expand this library by converting the former union business office to library purposes and next year's budget reflects a substantial increase in the amount recommended for library books. This library should contain all kinds of stories to appeal to the interests and reading ability of every child. A library will help to encourage intellectual growth and spark the imagination and stretch the pupil's reading horizon.

This year a reading teacher was added to our staff. Mrs. Olga Anderson, former teacher in our second grade, has been experimenting with team teaching in reading in grades one and three. Small group reading instruction is also carried on to help provide for the individual needs of children.

Conclusion

A welcome addition to the Administrative staff was the selection of John F. Maloney as Assistant Superintendent of the Union and the Regional School District. Mr. Maloney will be assistant in the secondary school area as well as in business administration. Continuing as Elementary Curriculum Coordinator, Mrs. Nell Stegmaier completes the administrative team located now at the new Administration Building.

In retrospect this has been a very busy and satisfying year. I am indebted to the many school committee members, principals, and staff who have given so unselfishly of their time and energy in making this year so educationally profitable.

Respectfully submitted,

FRANCIS M. MORAN

SILVER LAKE REGIONAL SCHOOL DISTRICT COMMITTEE

To the Citizens of the Silver Lake Regional School District:

The Silver Lake Regional School Committee continues to be faced with the physical problem of providing adequate space for the increasing number of pupils. This year's enrollment of 1922 represents an increase of 85 over the previous year, and we expect another 150 next year. We have again this year had to use three classrooms in the Maple Avenue School in Kingston Center. This building will be taken over by the Kingston Elementary School in the fall of 1966, but we are planning to use five classrooms at the Halifax Central School for next year.

We are moving toward a solution, a separate 800 pupil Junior High School voted by the Committee in December, 1964, and approved in January, 1965, by special town meetings in each of the four towns. After investigating a number of possible sites, we purchased land for this Junior High on Route 27 in Pembroke, at a location which is reasonably accessible from any part of the four towns. The architectural firm of Smith, Sellev, and Doherty has been engaged to design the building, which should be ready by September, 1967. When completed this should provide a temporary respite, but in view of the continuing growth of our Silver Lake towns and the long time lapse between initial study and completion of construction, we must be looking ahead and will soon have to start planning for the next phase of our expansion. The Junior High now being designed will house all of the 7th and 8th grade pupils from the Silver Lake District. The next logical step could be another Junior High located in Halifax or Kingston. The 9th grade classes could then be transferred to the Junior High building, releasing classrooms for use by the upper three grades. These suggestions will have to be still further evaluated in the next few years.

Part of our future planning must also include decisions as to how best to expand our Vocational facilities as the Academic school grows. This year a sub-committee of the Regional Committee has met several times with a group from neighboring towns who are interested in exploring the possibility of establishing a Regional Vocational School. We are suggesting that the town school committees of our four member towns submit articles for the March town meetings and we hope the Silver

Silver Lake Regional towns will vote to join in this Regional planning and study. At the same time the Silver Lake Regional Committee intends also to study all the aspects of possible expansion of our present Vocational School at Silver Lake in order to be able to offer you the best solution for the future. We have no preconceived notions as to the best method of providing an expanded Vocational program but feel that our towns should have the opportunity of taking part in any study which will improve our facilities.

We sadly note the sudden passing of our former Superintendent, Chester T. Ray, on Thanksgiving Day, November 11, 1963. He served Union 31 as Superintendent for fifteen years up until his retirement in 1963, and, of course, was also Superintendent of Silver Lake Regional from its creation. We owe a debt of gratitude to him for his part in helping to create a High School in which we may all take pride. His vision and foresight in helping to plan for the growth of our educational system will be long remembered by all who knew him.

We wish to extend our thanks to the administrators and staff who have tirelessly dedicated themselves to the day to day tasks of education. In the words of Cicero, "What nobler employment, or more valuable to the state, than that of the man who instructs the rising generation?"

ARTICLE 39. To see if the Town will vote to create a formal unpaid committee to be known as a Vocational Regional School District Planning Committee, to consist of three members, including one member of the School Committee, to be appointed by the Moderator in accordance with the provisions of Section 14, Chapter 71 of the General Laws, as amended; and that the sum of \$100.00 be raised and appropriated for the use of said committee.

ARTICLE 40. To see if the Town will vote to raise and appropriate, or transfer from unappropriated available funds in the treasury, a sum of money for the purpose of combining and printing the various by-laws of the town.

ARTICLE 41. To see if the Town will vote to raise or appropriate or transfer from unappropriated available funds in the treasury, a sum of money for the purchase of land or for payment toward same.

ARTICLE 42. To see if the Town will vote to raise or appropriate, or transfer from unappropriated available funds in the treasury, a sum of money to install a drainage culvert under Smith's Lane northwesterly down a private way, for a distance of approximately 250 feet, more or less.

ARTICLE 43. To see if the Town will vote to adopt the following by-law. A Board to be known as the "Wage and Personnel Board" shall be established, composed of three unpaid members, who shall not be employees or elected officials of the town, responsible for the administration and maintenance of classification and compensation plans. One member of the Board shall be appointed by the Moderator, one member by the Finance Committee and one member by the Board of Selectmen. The three members of the Board shall be appointed for terms of one year, two and three years respectively and upon the annual expiration of these terms their successors shall be appointed by the same appointing authorities for terms of three years.

Original appointments to the Wage and Personnel Board under this by-law shall be made not later than 60 days following the effective date of the by-law; and subsequent appointments shall be made within thirty days following the expiration of the term of the Board member who is to be replaced.

The Board shall draw up and recommend to the town a proposal for classification and compensation plans for consideration as a town by-law, and shall from time to time recommend to the town any action deemed necessary to maintain a fair and equitable pay level.

The Board shall make an annual report in writing to the Finance Committee and the Board of Selectmen on or before October first of each year.

ARTICLE 44. To see if the Town will vote to raise and appropriate, or transfer from unappropriated available funds in the treasury, a sum of money for the expenses of the Wage and Personnel Board.

ARTICLE 45. To see if the Town will vote to amend Section 3 of Article VIII of the town by-laws to read as follows: Any board or committee having authority to contract, shall be subject to competitive bidding if in excess of \$1,000.00. (Such contracts shall be in writing.)

ARTICLE 46. To see if the Town will vote to accept a by-law regulating earth removal within the limits of the town as follows.

1. The removal of sod and loam from any land in the Town, not in public use, to any location outside the Town is hereby prohibited under all circumstances; and the removal of sod, loam, soil, clay, sand, gravel or sub-surface rock from any land in the Town is also hereby prohibited except as may be authorized in any zoning district by a permit issued hereunder by the Selectmen, or authorized by an exception hereunder. No such permit shall be issued except upon written application therefor to the Board of Selectmen with a copy thereof to the Planning Board and after a public hearing before the Board of Selectmen. Such application shall include a topography plan to state of the land concerned, indicating existing and proposed excavations in the area to be excavated and stating the ownership and boundaries of the land for which such permit is sought, the names of all adjoining owners as found in the most recent tax list, the approximate locations of existing public and private ways nearest such land, and the publication fee as required by the Board of Selectmen. Notice of such public hearing shall be given by publication in a newspaper having general circulation in the Town at least 7 days prior to the date of such hearing.

Prior to such hearing, or renewal of existing permit, an inspection party, comprising representatives of the Planning Board and Selectmen, shall inspect the locus under application, and shall submit a written report to the Selectmen with its recommendations.

2. A copy of any permit granted hereunder by the Selectmen stating any conditions imposed, or a copy of the denial by the Selectmen of any application for such, stating the reasons for such denial, shall be made forthwith to the applicant Planning Board, and the Town Clerk. The conditions imposed in a permit may include, but are not limited to, the following:

- a. extent of time (not in excess of one year, except for renewals)
- b. area and depth of excavation
- c. steepness of slopes excavated
- d. distance between edge of excavation and neighboring properties or ways
- e. replacement of loam in excavated area
- f. temporary or permanent drainage
- g. the posting of security or bond stipulating conditions contained in permit
- h. the replacement of not less than the depth of topsoil required by the Selectmen over the whole of any area from which earth materials are removed where the location of such removal is afterward to become a residential sub-division.

3. The provisions hereto shall not be applicable to excavations which have been operated within five (5) years; and shall not prohibit the removal of such soil, loam, soil, clay, gravel or sub-surface rock as may be required to be excavated for the purposes of constructing structure foundations for which building permits have been issued, or for the purpose of constructing on site streets, drive-ways, parking areas or other surface installations. However, all loam removed in conjunction with the foregoing shall be stockpiled until completion of the project, at which time the necessary loam shall be used for grading and the balance or remainder thereof may then be removed from the locus. No earth removal shall be permitted below the level of any adjacent street within 200 feet of said street, unless in conjunction with any construction excavation authorized hereunder. These regulations shall not prohibit the transfer of soil, loam, soil, clay, sand, gravel or sub-surface rock from one part of a lot, tract or parcel of land to another part of the same lot, tract, or parcel of land in the same ownership.

ARTICLE 47. To see if the Town will vote to amend the Protective Zoning By-Laws of the town of Kingston by striking out Section 3, Paragraph (i) of said Zoning By-Laws the phrase referring to "gravel, clay, loam, sand or stone removal within 300 feet of a highway line" and substitute thereto "no gravel, clay, loam, sand or stone shall be removed without permission from the Zoning Board of Appeals."

ARTICLE 48. To see if the Town will vote to accept the provisions of Chapter 40A, Section 8, General Laws, which provides that no petitions to the town meeting for a change in any existing zoning by-law which has been unfavorably acted upon by the town meeting, shall be considered on its merits by the town meeting within two years after the date of such unfavorable action, unless the adoption of such proposed by-law is recommended in the final report of the Planning Board.

ARTICLE 49. To see if the Town will vote to accept the provisions of Chapter 40A, Section 20, General Laws, which provides that no appeal or petition for a variance from the terms of the Zoning By-Law and no application for a special exception to the terms of the Zoning By-Law, which has been unfavorably acted upon by the Board of Appeals shall be considered on its merits by said board within two years after the date of such unfavorable action, except with the consent of all of the members of the Planning Board.

ARTICLE 50. To see if the Town will vote to raise, by loan or otherwise, a sum of money for the purchase of a piece of fire equipment. Payment for said equipment to be provided by transferring the balance of \$535 remaining in the account entitled "Fire—Purchase of Fire Truck—1954" and the balance required by borrowing under Clause (9), Section 7, Chapter 44, of the General Laws, and authorize the Selectmen to dispose of the 1942 Maxim truck.

TOWN OF KINGSTON

REPORT and RECOMMENDATIONS
OF THE
FINANCE COMMITTEE
TO THE
ANNUAL TOWN MEETING
1966

Together with a Copy of the Warrant Articles
and Accompanying Recommendations

FINANCE COMMITTEE PROSPECTS AND TRENDS

Our town continues to grow steadily, although the pace of assessed valuation is less than a year ago (as it is everywhere) and consequently places an additional burden on the tax levies. The tax rate has advanced from \$41.00 to \$70.00 per thousand in ten years and the annual budget items now exceed \$1 million dollars. The need to find ways to finance municipal government operations and items of capital improvement is an ever-growing concern of State concern.

The amounts requested by the various departments for the current year together with requested and petitioned amounts in the warrant total \$1,521,773.47. The Finance Committee recommends the expenditure of \$1,213,064.08 or \$103,708.79 less. For \$1.00 which the town may wish to appropriate IN ALTERNATE to the amount recommended by the Finance Committee will increase the tax rate by an additional dollar.

THE RESERVE FUND

According to law, the town may appropriate a sum not exceeding five per cent of the tax levy of the preceding year to a Reserve Fund in maximum of \$37,181. this year. The State Bureau of Accounts suggests a marked increase in the Reserve Fund appropriation thereby saving the delay and expense of special town meetings. The Committee recommends an appropriation of \$37,181 for the Reserve Fund this year; \$100,000 Overly Surplus and \$10,000 to be raised from the tax levy.

FREE CASH

Notes from the Bureau of Accounts certifies that the amount of available funds or "free cash" in the treasury as of March 1966 is \$103,572.77. The Finance Committee recommends a transfer from free cash of the sum of \$81,000.00 (50%) to the Board of the Association in the reduction of the tax levy, and that the sums from free cash be transferred for any other purpose during the year after the annual town meeting.

IMPROVEMENTS IN TOWN GOVERNMENT

The spiraling tax rate immediately raises the question of the revaluation of all property assessments to market level, placed on its full and fair cash value. A thorough and careful study of assessments should be started immediately by the Board of Assessors and a concrete proposal and continuous program of assessments presented to the town.

The committee recommends, in the warrant, that the town establish a permanent "Capital Outlay Committee." Originally, this job was delegated to the Planning Board, but zoning and sub-division control occupies so much of the board's time that it cannot do a thorough job of capital budgeting. The Capital Outlay Committee will report each year, as outlined in the warrant article, can suggest whether certain items should be paid for by borrowing or by appropriation, can recommend the length of borrowings, and, shall project the general financial trend of the town for a six year period. The Capital Outlay Committee should not necessarily be concerned with economy but rather with regularity. Where no capital items of magnitude are needed in a particular year, the committee will have justified its existence if it proposes a stabilization fund in that year to keep the tax rate from fluctuating, later using the fund when a large outlay is required.

Early in September, the Finance Committee requested all departments to submit their salary schedules for 1966 before October 1st. From the results furnished by all the departments it is evident that salary classification and wage schedules should be established in a plan adopted by the town and administered by a personnel Board.

The Committee recommends, also in the warrant, that the town establish a permanent "Wage and Personnel Board" with the duty of preparing a salary classification by-law and, upon approval, to administer the program. Once a plan is adopted by the town, a step-rate feature will remove much of the pressure of piecemeal pay raises. Salaries for equivalent work would be roughly equal across the board.

The Committee recommends that the Board of Selectmen engage a Clerk-Secretary to process the large volume of work of the Board and the Board of Health that is now performed by the office of the Town Accountant. Such a secretary would be a liaison between the Boards and the townspeople and would attend all meetings of the Boards as a recording secretary.

The Committee recommends that the Board of Selectmen establish fees for the use of the public facilities at the Town Landing on River Street for out-of-town visitors.

introducing a consolidated public assistance appropriation. Under this heading are old age assistance, aid to dependent children, disability assistance, medical aid to the aged and several others. Expenditures will be classified on our books as to purpose. Since the town is in no position to debate the amount of assistance, there is not the same reason for segregation as in other items in the budget. It will prevent transfers or special tax meetings where one type of assistance used more funds than usual. This procedure will apply only to local appropriations and not to Federal grants. Amounts of Federal monies received in the prior year are estimated and the town need appropriate for what will be its and the State's share.

THE EDUCATIONAL BUDGET

The total cost of education in the Elementary and High Schools to be raised by the Kingston tax levy is \$564,518.34. The Committee presents below, in simplified form, the derivation of the total cost.

The Elementary School costs are found in budget items 76. Salaries, expenses, maintenance and ordinary repairs.

77. Out-of-State travel.

78. Vocational education.

165. Maturing debt on the 1958 addition.

167. Interest on maturing debt.

The Silver Lake Regional School costs are found in items 79 in budget item 79. Kingston's share of the complete operation and construction budget cost of the Regional School is 20% of the four-town assessment.

	Elementary	Silver Lake
Administration	\$8,611.00	\$29,971.50
Instruction	184,880.00	655,860.00
Other school activities	42,101.00	19,262.00

TOTAL AMOUNT TO BE RAISED IN

KINGSTON BY TAX LEVY	\$294,298.00	\$270,220.34 (287)
COMBINED TOTALS	\$564,518.34	

(The amount of estimated income from State Aid for the Elementary School is unavailable at this writing; comparable income in 1964 was \$90,302. and is returnable to the general treasury. We must appropriate \$294,298.00 and the State Aid will be credited on the "cherry sheet" at a later date.)

COMMITTEE ACTIVITY

Late in the summer, the Finance Committee divided into four sub-committees to attend meetings of the Board of Selectmen, the Kingston School Committee, the Board of Public Welfare and the Highway Department. It was the duty of these sub-committees to meet with these groups, study their problems, inspect their equipment and property, note their overall operation, and to report back to the full committee. The results were so successful that, after the new committee organizes in May, the sub-committee work will extend to all major departments of the town.

This year, for the first time, the Chairmen of the Finance Committees of Halifax, Pembroke, Plympton and Kingston met several times to review mutual municipal problems in the area towns and more specifically, to discuss the ever increasing costs of educating our children. The Chairmen also met with the finance committee of the regional school district.

Your Chairman met with Mr. McGill, Assistant Director of the Bureau of Accounts to discuss financial procedures.

The Committee is a member of the Plymouth County Finance Committee Association and the Association of Town Finance Committees of Massachusetts.

Recommend favorable action.

ARTICLE 46 To see if the Town will vote to amend a by-law regarding earth removed within the limits of the town as follows:

The removal of soil and loam from any land in the Town for a public use, to any location outside the Town, is hereby prohibited under all circumstances and the removal of soil and loam shall be prohibited except as may be authorized in writing by a permit issued by the Board of Selectmen. No such permit shall be issued except upon written application made to the Board of Selectmen with a map there to the Planning Board and after a public hearing before the Board of Selectmen. Such application shall include a topographic map of the land concerned indicating existing and proposed locations in the area to be excavated and stating the ownership and boundaries of the land for which such permit is sought, the names of all adjoining owners as found in the most recent tax map, the approximate locations of existing public and private ways nearest such land, and the purification fee as required by the Board of Selectmen. Notice of such public hearing shall be given by publication in a newspaper having general circulation in the Town at least 7 days prior to the date of such hearing.

Prior to such hearing, or renewal of existing permit, an inspection party, comprising representatives of the Planning Board and Selectmen, shall inspect the locus under application and shall submit a written report to the Selectmen with its recommendations.

2 A copy of any permit granted hereunder by the Selectmen stating any conditions imposed, or a copy of the denial by the Selectmen of any application for such, stating the reasons for such denial, shall be made forthwith to the applicant Planning Board, and the Town Clerk. The conditions imposed in a permit may include, but are not limited to, the following:

- a. extent of time (not in excess of one year, except for renewal)
- b. area and depth of excavation
- c. steepness of slopes excavated
- d. distance between edge of excavation and neighboring properties or ways
- e. replacement of loam in excavated area
- f. temporary or permanent drainage
- g. the posting of security or bond stipulating conditions contained in permit
- h. the replacement of not less than the depth of top soil required by the Selectmen over the whole of any area from which earth materials are removed where the location of such removal is afterward to become a residential sub-division.

3. The provisions hereto shall not be applicable to gravel pits which have been operated within five (5) years; and shall not prohibit the removal of such sod, loam, soil, clay and gravel or sub-surface rock as may be required to be excavated for the purposes of constructing structure foundations for which building permits have been issued, or for the purpose of constructing on site streets, drive-ways, parking areas or paved surface installations. However, all loam removed in conjunction with the foregoing shall be stockpiled until completion of the project, at which time the necessary loam shall be used for grading and the balance or remainder thereof may then be removed from the locus. No earth removal shall be permitted below the level of any adjacent street within 200 feet of said street, unless in conjunction with any construction excavation authorized hereunder. These regulations shall not prohibit the transfer of sod, loam, soil, clay, sand, gravel or sub-surface rock from one part of a lot, tract or parcel of land to another part of the same lot, tract, or parcel of land in the same ownership.

Recommend favorable action.

ARTICLE 47. To see if the Town will vote to amend the Protective Zoning By-Laws of the town of Kingston by striking out Section 3, Paragraph (i) of said Zoning By-Laws the phrase referring to "gravel, clay, loam, sand or stone removal within 300 feet of a highway line" and substitute thereto "no gravel, clay, loam, sand or stone shall be removed without permission from the Zoning Board of Appeals."

Recommend favorable action.

ARTICLE 48.
